

■ Global Rate of Exchange - Freight Bill of Lading

April 01, 2010

Dear Customer,

with the recently announced global alignment of the Rate of Exchange date calculation we would like to clarify the handling procedure for collect charges printed on a **freighted Bill of Lading**.

- **Collect Freight component** printed on the Bill of Lading will be displayed in the tariff currency. A currency conversion at time when the bill of lading is issued is not longer possible.

The above becomes effective with immediate effect.

For any further information, please contact your local Hapag-Lloyd sales office.

Kind regards,

Hapag-Lloyd AG
