

## Elizabeth Container & Chassis Depot (ECCD)

Based on valuable feedback from our customers, we are pleased to inform you that Hapag-Lloyd has secured access to a new off-dock Container Yard (CY) in the New York City area to support ongoing operations:

### Elizabeth Container & Chassis Depot (ECCD)

1510 South Bay Ave

Elizabeth, NJ 07201

This facility will serve as a **supplementary location** for limited empty container repairs and returns.

**Effective May 12, 2025**, our Equipment Team may direct empty returns to ECCD on an as-needed basis.

Given ECCD's limited capacity, this location is not intended as a general alternative to APMT or Maher, and we ask that returns to those terminals continue to be prioritized whenever possible.

For the latest empty return instructions, please visit our Empty Return Page: [ERLD](#). A detailed map and further guidance are available there. Thank you for your continued support.
