Our Offer

You asked, we listened: Charge update for USA Imports

We've heard you, and we're here to help. We will not charge Port Demurrage if we can't provide you with trucks or chassis for Carrier Haulage moves! We will also waive the inland terminal storage fees for any import truck Carrier Haulage container moving through US ports or Inland terminals. Just share your Delivery Order, Bill of Lading, Payment and Customs Clearance on time. Help us with the information we need to move your supply chain forward and avoid charges. Learn more [here](#)

You asked, we listened: Introducing Savannah SmartStacks

We understand the need for speed. Say hello to Savannah SmartStacks in collaboration with IMC. This product accelerates your import truck deliveries from the Savannah terminal by reducing dwell times through a virtual container pile. And here's the extra perk - SmartStacks comes with a dray off feature, perfect for those times when Free Times just don't align with your cargo plans. Dive in [here](#) and discover the benefits!

Stay tuned!

The excitement doesn't stop here. We're cooking up more innovations to speed up delivery and enhance your North American Inland experience. Stay [connected](#) with us for the latest updates!

You asked, we listened: Improved USA Customer Service

Your time matters, and your feedback counts. Introducing our Inland Delivery Team (IDT) – a one-stop solution for quicker responses and smoother support. We're getting positive customer feedback so give it a try and experience the difference!

You asked, we listened: Live Tracking

Live Position enables you to track your container in real time throughout the entire journey. From ship to rail to truck – benefit from full visibility!

You asked, we listened: New Rail Product - Houston to key locations

Choices matter, and we're expanding them for you! Our new rail service, in collaboration with Union Pacific, links Houston with Denver, Salt Lake City, Los Angeles, and Oakland. This widens connections to/from South America, North/South Europe, and supports transshipment to/from Africa. With this on-dock option, your containers move directly and swiftly to/from Houston's port, bypassing local delays. Curious? Learn more [here](#)
