Legend:

DOG* = Day of Grounding

DOG* for USA to USA Rail

Day of Grounding USA-USA Rail is considered 1st Working Day based on 12:01 hours grounding.

When grounding occurs before noon (local time) the day of grounding counts as the first Free Day.

If grounding occurs after noon or a on a holiday, that day is considered day of grounding. The following WD* is considered first free day

DOG* for Canada to USA Rail:

Cross-Border (Can-USA Rail) Day of Grounding is based on 00:01 hours.

Free Time occurs for the Day of Grounding plus 2 additional Working Days.

WD* = Working day is defined as when the relevant terminal/facility is open for interchange of respective empty and/or full containers.

Working day can be different for each terminal. At terminals that are open on Saturday and/or Sunday as well, those days will be considered as WD

Regular Equipment = general purpose equipment of all sizes, with/without chassis, among others 20',40',45' dry and high-cube containers

Special Equipment = open top, hardtop, ventilated, flatrack, etc. excluding Temperature Controlled (Operating)

20s = includes 22 - 25ft Containers

40s = Includes 40, 40HC & 45ft Containers unless separately noted
