Remuneration Report 2024

Hapag-Lloyd Aktiengesellschaft

REMUNERATION REPORT

The remuneration report provides detailed and individualised information on the remuneration granted and owed to the active and former members of the Executive Board and Supervisory Board of Hapag-Lloyd Aktiengesellschaft, Hamburg (hereinafter "Hapag-Lloyd AG") in the reporting year as well as benefits assigned. The report meets the requirements of Section 162 of the German Stock Corporation Act (AktG) and is based on the recommendations of the German Corporate Governance Code (GCGC) as amended on 28 April 2022 ("GCGC 2022"). The respective remuneration is included in the remuneration for the respective financial year in this report on the basis of the understanding of the terms "granted" and "owed" under stock corporation law. This means that the remuneration is disclosed in the financial year in which it is paid ("granted" as defined in the German Stock Corporation Act [AktG]) or is due for payment but has not yet been fulfilled ("owed" as defined in the German Stock Corporation Act [AktG]). For individual remuneration components, e.g. short and long-term variable remuneration, the remuneration will therefore be allocated differently with regard to time than specified by the requirements of commercial law and, consequently, there will be a discrepancy between total annual remuneration under stock corporation law and the total amounts under commercial law. For the short-term variable remuneration, the remuneration earned based on target achievement in the reporting year but not paid until the following financial year is also disclosed. The Annual General Meeting on 30 April 2024 approved the remuneration report for the 2023 financial year by a majority of 99.83%. The current remuneration report also contains a summary of the remuneration systems for the members of the Executive Board and Supervisory Board of Hapag-Lloyd AG. Further detailed information on the remuneration systems can be found on the company website at https://www.hapag-lloyd.com/en/company/ir/corporate-governance/remuneration.html.

REMUNERATION OF THE MEMBERS OF THE EXECUTIVE BOARD

Principles of the remuneration system

The Supervisory Board regularly reviews the appropriateness of the system and amount of Executive Board remuneration. If necessary, the Supervisory Board engages the services of external consultants for this purpose. As part of this review, the remuneration structure and the amount of Executive Board remuneration are assessed, in particular in comparison with the external market (horizontal benchmarking), and the remuneration amount in comparison with other remuneration within the Company (vertical benchmarking). If the review identifies the need to change the remuneration system, structure or amount, the Supervisory Board's Presidential and Personnel Committee prepares appropriate proposals for resolution by the Board.

The current remuneration system was approved by the Annual General Meeting on 3 May 2023 by a majority of 99.79% of the votes cast. The remuneration of Executive Board members active on this date was adjusted in line with this enhanced remuneration system retroactively to 1 January 2023.

The remuneration system for the members of the Executive Board of Hapag-Lloyd AG includes performance criteria and targets derived from the strategic key performance indicators of earnings before interest, taxes, depreciation and amortisation ("EBITDA"), operating earnings before interest and taxes ("EBIT") and return on invested capital ("ROIC") and incorporates a challenging ESG target into the long-term remuneration components. As such, the remuneration system helps to promote the business strategy and contributes to the long-term development of the Company. At the same time, it provides adequate and competitive remuneration system also takes account of the Company's shareholder structure. Due to the low volume of Hapag-Lloyd AG shares in free float and the volatility associated with this, remuneration in the form of shares or share-based remuneration is not included (at present in any case). However, the remuneration system does include performance criteria that are essential for the intrinsic value of Hapag-Lloyd AG shares. In addition, the variable remuneration components provide the Executive Board members of Hapag-Lloyd AG with a long-term incentive by measuring success over several financial periods.

Executive Board remuneration fundamentally consists of fixed, non-performance-related and variable, performance-related components. The fixed, non-performance-related components comprise fixed annual remuneration, pension benefits, and benefits in kind and other fringe benefits. The variable, performance-related components consist of short-term variable remune-ration (annual bonus) and long-term variable remuneration (long-term incentive plan – "LTIP"). However, the option to pay an additional integration bonus is an exception. This was granted to the Executive Board members for the 2023 financial year for the speedy and successful integration of the terminal holdings.

Changes to the Executive Board

In accordance with a resolution of the Supervisory Board on 13 September 2023, Mr Dheeraj Bhatia was appointed as a new, fifth Executive Board member with effect from 1 January 2024. Mr Bhatia took charge of the newly created Executive Board responsibility "Terminal & Infrastructure" as the Chief Terminal & Infrastructure Officer ("CTIO").

Fixed remuneration components

Fixed annual remuneration

The annual remuneration is fixed cash remuneration based on the whole financial year and is divided into twelve equal amounts which are paid at the end of each month. If an employment contract starts or ends during a financial year, the fixed remuneration is paid pro rata.

Fringe benefits

Fringe benefits comprise miscellaneous non-cash remuneration and other fringe benefits such as the provision of a company car, funeral allowances and allowances for surviving dependants, and insurance cover (e.g. accident insurance, legal cover, D&O insurance).

Pension payments

In principle, the members of the Executive Board receive an annual one-off payment amounting to 20% of their respective fixed annual remuneration for each full calendar year for pension purposes (pension contribution). This one-off payment is paid out directly by the Company in agreement with the respective Executive Board member or transferred to a reinsured provident fund. Beyond the annual one-off payments, Hapag-Lloyd has no further obligations from these pension commitments to the respective Executive Board members due to the reinsurance. If an employment contract starts or ends during a financial year, the annual one-off amount is paid pro rata. At the time of retirement, the members of the Executive Board have the right to choose between receiving a one-off lump-sum payment or a lifelong pension payment.

Variable remuneration components

The strategic objectives of the Company form the basis for selecting the performance criteria for variable remuneration and ensure that the members of the Executive Board act in line with the Company's strategy. Based on the strategic key performance indicators, the Company has selected various financial targets as parameters for variable remuneration. In addition, an ESG target has been incorporated into variable remuneration as a further performance criterion.

In accordance with the remuneration system, the Supervisory Board used the Hapag-Lloyd Group's key earnings figures EBIT, EBITDA and ROIC as a basis for selecting the performance criteria for the 2024 financial year and formulated long-term and short-term targets for the Executive Board in relation to this. In addition, the average efficiency ratio (AER), which is used to measure the carbon footprint of the Group's fleet, was established as a performance criterion (ESG target). In particular, EBIT as a key indicator reflects the Hapag-Lloyd Group's profitability and earnings quality and therefore contributes decisively to the implementation of the company strategy to achieve sustainable earnings. In addition, the long-term variable remuneration of all Executive Board members is, as a rule, higher than the short-term variable remuneration, thus promoting the long-term performance of the Company (without taking the integration bonus into consideration).

Short-term variable remuneration

The short-term variable remuneration is granted in the form of an annual bonus which is paid after approval of the consolidated financial statements which have been audited and certified by the external auditors. The amount of the bonuses is based on the target achievement of the performance criteria that are specified by the Supervisory Board after the financial year ends and is linked to earnings before interest and taxes (EBIT) as a key financial performance indicator. The Supervisory Board defines a fixed percentage (sharing factor) of the Group's annual EBIT, which is payable to the respective Executive Board members. The sharing factor is regularly reviewed and adjusted if necessary. The annual bonus is capped at a specific euro amount.

The variable bonus of the Executive Board members, which was paid in the 2024 financial year, is generally 0.075% of the Group's earnings before interest and taxes (EBIT) for the CEO, 0.055% for the CFO and 0.05% for the other Executive Board members. It was capped at EUR 1,200,000 for the CEO, EUR 880,000 for the CFO and EUR 800,000 for the other Executive Board members. As mentioned above, payment is made after the consolidated financial statements have been audited and certified by the external auditors.

For the short-term variable remuneration which was paid in the 2024 financial year and the previous year, the performance criteria are as follows:

in EUR thousand	Value in FY 2023 (relevant for payment in 2024)	Value in FY 2022 (relevant for payment in 2023)
Group EBIT	2,531,694.6	17,524,539.9

Based on the remuneration system, the agreed targets and the actual target achievement in relation to the Group EBIT generated in the 2023 financial year, the following bonuses were payable to the individual Executive Board members in the 2024 financial year:

in EUR thousand		Group EBIT	Percentage of annual Group EBIT	Calculated payment amount before capping	Actual payment amount after capping
Rolf Habben Jansen	2023 (payment 2024)	2,531,694.6	0.075%	1,898.8	1,200.0
(Chairman of the Executive Board)	2022 (payment 2023)	17,524,539.9	0.075%	13,143.4	900.0
Donya-Florence Amer	2023 (payment 2024)	2,531,694.6	0.050%	1,265.9	800.0
	2022 (payment 2023)	17,524,539.9	0.050%	8,762.3	550.0
Dheeraj Bhatia (Member of the	2023 (payment 2024)	_	_	_	_
Executive Board since 1.1.2024)	2022 (payment 2023)	_	_	_	_
Mark Frese	2023 (payment 2024)	2,531,694.6	0.055%	1,392.4	880.0
	2022 (payment 2023)	17,524,539.9	0.055%	9,638.5	660.0
Dr Maximilian Rothkopf	2023 (payment 2024)	2,531,694.6	0.050%	1,265.9	800.0
	2022 (payment 2023)	17,524,539.9	0.050%	8,762.3	600.0
Total 2023 (payment 2024)	_	-	-	5,823.0	3,680.0
Total 2022 (payment 2023)	-	_	-	40,306.5	2,710.0

In the 2024 financial year, an integration bonus was additionally granted to the Executive Board members for the 2023 financial year for the speedy and successful integration of the terminal holdings. This involved allocating a specified amount to each Executive Board member (target bonus amount). The target bonus amount is up to EUR 800,000 for the CEO and up to EUR 500,000 for the other Executive Board members. For this purpose, the Supervisory Board agreed on targets with the Executive Board that relate to the integration in the areas of operational business, IT, Human Resources, Finance and Organisation (areas of action). For each of the five areas of action, criteria were specified for which the target achievement could be between 0% and 150%. In this regard, the arithmetic average of the percentages as calculated above (maximum of 100%, however) was decisive for the amount paid from the integration bonus. The integration bonus was determined by the Supervisory Board based on an integration report produced by an expert and was due for payment in full on 30 April 2024.

The short-term variable remuneration earned on the basis of the target achievement in the 2024 financial year and paid in the 2025 financial year is presented for information purposes. The performance criteria for this remuneration component are presented as follows:

in EUR thousand	Value in 2024 FY (relevant for payment in 2025)
Group EBIT	2,577,457.4

Based on the remuneration system, the agreed targets and the actual target achievement in relation to the Group EBIT generated in the 2024 financial year, the following bonuses are payable to the individual Executive Board members in the 2025 financial year:

					Actual
			Percentage	Calculated pay-	payment
			of annual	ment amount	amount after

Long-term variable remuneration

The long-term development of Hapag-Lloyd AG's value is promoted and incentivised by a multiyear bonus (long-term incentive plan - "LTIP"). The LTIP incentivises the Executive Board members during a multi-year measurement period with regard to the strategic key performance indicators of earnings before interest, taxes, depreciation and amortisation (EBITDA), average return on invested capital (ROIC) and, since 2023, earnings before interest and taxes (EBIT), as well as a central target in the area of environmental, social and governance matters (ESG target) and, as a result of this, it promotes the business strategy and the long-term development of the Company. Due to the low volume of Hapag-Lloyd AG shares in free float and the volatility associated with this, a share-based remuneration component for the Executive Board members is not envisaged at present. The long-term variable remuneration of the Executive Board members has therefore been modified several times in the meantime, most recently in 2023. However, with regard to the long-term variable remuneration granted until the 2022 financial year (inclusive), the existing conditions continue to apply unchanged. In light of this, the long-term variable remuneration granted as and from the 2023 financial year (2023 LTIP) is presented first below, followed by the long-term variable remuneration granted as and from the 2020 financial year (2020 LTIP, amended 2022 - subsequently "2020 LTIP ESG").

Under the 2023 LTIP, which came into effect on 1 January 2023 and replaced the previously applicable LTIP 2020 ESG, a specified amount ("allocation amount") is granted to each Executive Board member and results in a payment amount for each Executive Board member, depending on the target achievement after a three-year vesting period ends. The LTIP consists of four components: an EBIT component, a ROIC component, an EBITDA component and an ESG component, each of which has a weighting of 25%. The allocation amount is divided among these four components accordingly. All four components are linked to performance criteria, based on which the target achievement is calculated.

- For the EBIT component, the percentage for the target achievement is dependent on the arithmetic three-year average of the Group EBIT in the vesting period (performance EBIT margin) compared to the arithmetic average of the peer group (reference EBIT margin). The payment amount is calculated by multiplying the 25% of the allocation amount by the calculated percentage (maximum of 200%) of the target achievement.
- The target achievement for the ROIC component is determined using a three-year average
 of the annual Group ROIC in the vesting period (performance ROIC). The Supervisory Board
 defines a target achievement curve, from which the percentage of the target achievement
 can be ascertained. It specifies the values for the performance ROIC, which correspond
 to 0%, 50%, 75%, 100%, 150% and 200%. Here, too, the payment amount is calculated
 by multiplying the 25% by the calculated percentage of the target achievement.

- For the target achievement of the EBITDA component, the Supervisory Board initially specifies a target value (EBITDA target value) that corresponds to 100% target achievement for the performance EBITDA (calculated using a three-year average of the annual Group EBITDA and with a maximum value of 200%). The sharing factor, which is likewise set by the Supervisory Board, is the percentage of this target value which corresponds to 25% of the allocation amount. The actual payment amount is calculated by multiplying the performance EBITDA actually achieved by the sharing factor.
- The target achievement for the ESG component is determined using an ESG performance criterion set centrally. This ESG performance criterion represents the average efficiency ratio (AER), which is used to measure the carbon footprint of the Group's fleet of vessels. For this purpose, the Supervisory Board sets a value for each financial year based on Hapag-Lloyd AG's sustainability-linked bond framework a value that corresponds to a target achievement of 100% and sets a concrete target achievement curve. The payment amount is calculated by multiplying the 25% of the allocation amount by the arithmetic average of the calculated percentages (maximum of 200%, however).

The payment amount comprises the four amounts determined previously. As an additional condition for payment, the total of the annual EAT (earnings after taxes) in the consolidated financial statements of Hapag-Lloyd that relate to the vesting period must be greater than 0. The total payment amount calculated on this basis falls due on 30 April of the year following the end of the vesting period and is payable as a gross amount.

Under the 2020 LTIP ESG applicable as and from the 2022 financial year, an allocation amount was likewise assigned to the Executive Board members per calendar year. This allocation amount assigned was split up, with 40% being linked to a retention component, 40% linked to a performance component and 20% linked to an ESG component. As a rule, the vesting period is three years. The payment amount for the relevant components after three years is calculated by multiplying the proportionate allocation amount by the respective target achievement. As a rule, the target achievement for the retention component is calculated using the three-year average of the Group's EBITDA in the vesting period (for the 2022 tranche: 2022 to 2024) compared to the Group's EBITDA in the reference period (for the 2022 tranche: 2019 to 2021). The target achievement for the performance component is calculated in the same way as outlined above and adjusted upwards or downwards based on the three-year average of the ROIC in the vesting period using a defined matrix. As an additional condition for payment of the performance component, the total of the annual earnings after taxes in the consolidated financial statements of Hapag-Lloyd that relate to the vesting period must be greater than 0 (zero). The target achievement for the ESG component is determined using the AER (Average Efficiency Ratio). For this purpose, the Supervisory Board sets a value for each financial year based on HLAG's sustainability-linked bond framework - a value that corresponds to a target achievement of 100% - and sets a concrete target achievement curve. The payment amounts for the three components are limited to 150% of the individual allocation amount. The total payment amount calculated on this basis falls due on 30 April of the year following the end of the vesting period and is payable as a gross amount.

Under the 2020 LTIP applicable up until the 2021 financial year, an allocation amount was likewise assigned to the Executive Board members per calendar year. This allocation amount was divided equally into a retention component and a performance component. As a rule, the vesting period is three years. The payment amount for the retention component after three years is calculated by multiplying half of the allocation amount by the respective target achievement. As a rule, the target achievement for the retention component is calculated using the three-year average of the Group's EBITDA in the vesting period (for the 2021 tranche: 2021 to 2023) compared to the Group's EBITDA in the reference period (for the 2021 tranche: 2018 to 2020). The target achievement for the retention component is capped at 150% and has a minimum value of 0%. The target achievement for the performance component is calculated in the same way as outlined above and adjusted upwards or downwards based on the three-year average of the ROIC in the vesting period using a defined matrix. The target achievement for the performance component is likewise capped at 150% and has a minimum value of 0%. The payment amount for the performance component after three years is calculated by multiplying half of the allocation amount by the target achievement as outlined above. As an additional condition for payment of the performance component, the total of the annual earnings after taxes in the consolidated financial statements of Hapag-Lloyd that relate to the vesting period must be greater than 0 (zero). The payment amount calculated on this basis falls due on 30 April of the year following the end of the vesting period and is payable as a gross amount.

For the long-term variable remuneration which was paid in the 2024 financial year (2020 LTIP, 2021 tranche [period 2021–2023]) (previous year: 2015 LTIP, 2019 tranche [period 2019–2022] and 2020 LTIP, 2020 tranche [period 2020–2022]), the performance criteria are as follows:

Performance of	riterion	Relative percen- tage	Value in 2023 FY	Target achieve- ment	Capping (relevant for payment in 2024)
Retention component	Average EBITDA performance period compared to the	50%	11,581	567%	150%
	Average EBITDA of the reference period		2,042		
Performance	Performance matrix: Development of the average EBITDA of the performance period compared to the reference period	50%	567%	150%	150%
component	and the average ROIC		65.5%		
	Secondary condition: sum of EAT over the performance period	> 0	9,693	OK	

LTIP 2020, Tranche 2021 (period 2021–2023)

Based on the agreed targets and the target achievement in the 2023 financial year, the following payments from long-term variable remuneration 2020 LTIP, 2021 tranche (period 2021–2023) (previous year: 2015 LTIP, 2019 tranche [period 2019–2022]) and 2020 LTIP, 2020 tranche (period 2020–2022) were payable to the individual Executive Board members in the 2024 financial year, while taking account of the cap of 150% outlined above:

in EUR thousand	2023 (paid in 2024)	2022 (paid in 2023)
Rolf Habben Jansen		
(Chairman of the Executive Board)	1,125.0	2,100.0
thereof LTIP 2020, tranche 2021	1,125.0	_
thereof LTIP 2015, tranche 2019	-	1,050.0
thereof LTIP 2020, tranche 2020	-	1,050.0

Dr Maximilian Rothkopf	750.0	1,500.0
thereof LTIP 2020, tranche 2021	750.0	-
thereof LTIP 2015, tranche 2019	_	750.0
thereof LTIP 2020, tranche 2020	_	750.0
Total	2,625.0	4,741.4

Donya-Florence Amer received no payments from the LTIP tranches which expired in 2023 and 2022 in either the 2024 financial year or in the previous year, as she was not yet a member of the Company's Executive Board at the time of allocation of these tranches. As Dheeraj Bhatia was only appointed as an Executive Board member with effect from 1 January 2024, he also received no payments from long-term variable remuneration.

Possible additional remuneration in cash (discretionary bonus)

The Executive Board contracts also stipulate that the Supervisory Board may grant additional remuneration, capped at 100% of fixed annual remuneration, in special circumstances or for extraordinary activities. No such additional remuneration was granted in the 2024 financial year or in the previous year.

Regulations in the event that Executive Board activities end

Severance payment cap in the event that Executive Board activities end prematurely In accordance with the GCGC, the current employment contracts of the Executive Board members also provide for a general cap on any severance payments. Accordingly, payments to an Executive Board member whose Executive Board activities end prematurely must not exceed two annual remunerations and must not exceed the value of the remuneration for the remaining term of the employment contract. In the event that an Executive Board member's contract is terminated for cause pursuant to Section 626 BGB ("bad leaver"), due to incapacity to work or by mutual agreement, the employment contracts do not provide for any severance payment.

When calculating the severance payment cap, the remuneration in the last full financial year is used as a basis (comprising fixed annual remuneration, short-term variable remuneration and fringe benefits); if the Executive Board member has been in office for two full financial years when the contract ends prematurely, the average remuneration for the last two financial years is used as a basis. The LTIPs and the contributions to pension plans are not taken into consideration when calculating the severance payment.

If an Executive Board member's period in office ends during the three-year measurement period of the LTIP, and a further period in office does not occur, the LTIP components are forfeited in the case of resignation without good cause, "bad leaver" or if the employment contract was only in place for a period of twelve months or less.

Post-contractual non-compete restrictions

No post-contractual non-compete restrictions have been agreed with the Executive Board members.

Change-of-control clause

The employment contracts of the Executive Board members do not contain any change-ofcontrol clauses.

The 2023 LTIP stipulates that the 2023 LTIP ceases in the event of a change of control as defined in the German Securities Acquisition and Takeover Act (WpÜG). The EBIT component, the ROIC component, the EBITDA component and the ESG component become non-forfeitable when the change of control occurs and, pursuant to the conditions of the LTIP, are converted into a euro amount that is to be paid to the respective Executive Board member in the short term. If this amount falls below the relevant allocation amount for the Executive Board member, the Executive Board member receives a payment equal to the allocation amount instead. The conditions of the 2020 LTIP and the 2020 LTIP ESG contain similar rules.

Target total remuneration

In accordance with the remuneration system for the Executive Board members, the Supervisory Board established the target total remuneration for each Executive Board member for the 2024 financial year. The target total remuneration is the amount that an Executive Board member earns in total for a financial year when the target achievement is 100% for all variable components. The remuneration system allows for regular target total remuneration of up to EUR 3,700.0 thousand for the Chief Executive Officer, up to EUR 2,700.0 thousand for the Chief Financial Officer and up to EUR 2,300.0 thousand for the other ordinary Executive Board members, although this remuneration amount does not have to be fully utilised at any time. The components that are regularly taken into consideration for target total remuneration are fixed annual remuneration, including pension payments, benefits in kind and fringe benefits, as well as short-term variable remuneration (annual bonus) and long-term variable remuneration (LTIP). When establishing the target total remuneration for the 2024 financial year, the Supervisory Board ensured that the percentage of long-term variable remuneration is always higher than the percentage of short-term variable remuneration and that the percentages of the individual remuneration components are within the values specified in the remuneration system. In accordance with the remuneration system, the percentage of variable remuneration in relation to the target total remuneration has to be between 50% and 65%, whereby the short-term variable remuneration (annual bonus) can be between 15% and 25% and the long-term variable remuneration can be between 35% and 45% and, whatever the case, the long-term variable remuneration must outweigh the short-term variable remuneration. Half of the capped amount is used here for the short-term variable remuneration, the allocation amount is used for the long-term variable remuneration, and the maximum amount established in the remuneration system, equal to 15% of fixed annual remuneration, is used for the fringe benefits.

The following table shows the individual target total remuneration per Executive Board member and the relative percentages of the individual remuneration components in relation to the target total remuneration for the 2024 financial year and the previous year.

Individualised disclosure of the remuneration of the Executive Board members

Remuneration of the Executive Board members active in the financial year Remuneration granted and owed to active Executive Board members as per Section 162 of the German Stock Corporation Act (AktG)

The following table shows the remuneration granted and owed to the active Executive Board members in the 2024 financial year and the previous year as per Section 162 (1) (1) of the German Stock Corporation Act (AktG). Accordingly, the table contains all the amounts that have actually been paid to the individual Executive Board members in the respective financial year ("remuneration granted") or which are legally due for payment in the respective financial year but have not yet been fulfilled ("remuneration owed").

With regard to short-term variable remuneration in the 2024 financial year, this comprises the annual bonus which was assigned for the 2023 financial year and paid in the 2024 financial year. In the previous year, this comprises the annual bonus which was assigned for the 2022 financial year and paid in the 2023 financial year (cf. explanations in Section "Short-term variable remuneration").

In addition, the 2021 LTIP tranche of the 2020 LTIP (period 2021–2023) allocated in the 2021 financial year was paid in the 2024 financial year, and the 2019 LTIP tranche of the 2015 LTIP (period 2019–2022) and 2020 LTIP tranche of the 2020 LTIP (period 2020–2022) allocated in the 2019 and 2020 financial years were paid in the previous year (cf. explanations in Section "Long-term variable remuneration").

Dheeraj Bhatia

¹ In deviation from the provisions of the remuneration system in section 4.1, fringe benefits of up to 50% of the fixed annual remuneration may be granted in accordance with section 4.3.2 as compensation for the costs associated with a change of residence. However, these are not to be taken into account in the target remuneration.

Dr Maximilian Rothkopf

Adherence to maximum remuneration

The Supervisory Board has set a maximum amount of annual remuneration ("maximum remuneration") as per Section 87a (1) (2) (1) of the German Stock Corporation Act (AktG) limiting the payments made to an Executive Board member for a particular year. The maximum remuneration includes the fringe benefits and the contributions to or cost of the company pension. It is calculated accordingly from the fixed annual remuneration, contribution to or cost of the company pension, fringe benefits, annual bonus payment and payment from the LTIP. Based on the remuneration systems, the maximum remuneration for the 2024 financial year is EUR 5,500.0 thousand for the CEO, EUR 3,500.0 thousand for the CFO and EUR 3,000.0 thousand each for the other ordinary members of the Executive Board.

As a rule, adherence to the maximum remuneration can only be assessed retrospectively when the payment amount from the LTIP tranche set up for the respective year is established. The payment from the LTIP tranche for the 2021 financial year (2020 LTIP, 2021 tranche [period 2021 – 2023]) was made in the 2024 financial year. The payment of the LTIP tranche assigned for the 2024 financial year (2023 LTIP, 2024 tranche [period 2024 – 2026]) will be made in the 2027 financial year. The remuneration report for the 2026 financial year will report on the conclusive assessment of adherence to the maximum remuneration for the 2024 financial year.

Adherence to the maximum remuneration for the 2022 financial year

As the vesting period for the long-term variable remuneration 2020 LTIP ESG, 2022 tranche (period 2022–2024) ended on 31 December 2024, adherence to the maximum remuneration as defined in Section 87a (1) (2) (1) of the German Stock Corporation Act (AktG) can be reviewed for the 2022 financial year. Derived from the remuneration system for the 2022 financial year, the maximum remuneration for the 2022 financial year is EUR 4,240,000 for the CEO, EUR 3,047,500 for the CFO and EUR 2,650,000 each for the remaining ordinary Executive Board members.

For the long-term variable remuneration which will be paid in the 2025 financial year (2020 LTIP ESG, 2022 tranche [period 2022–2024]), the performance criteria are as follows:

LTIP 2020 ESG, Tranche 2022 (period 2022-2024)

Performance of	priterion	Relative percen- tage	Value in 2024 FY	Target achieve- ment	Capping (relevant for payment in 2025)
Retention component	Average EBITDA performance period compared to the	40%	9,513	184%	150%
	Average EBITDA of the reference period		5,180		
Performance	Performance matrix: Development of the average EBITDA of the performance period compared to the reference period	40%	184%	150%	150%
component	and the average ROIC		46.8%		
	Secondary condition: sum of EAT over the performance period		7,462	OK	117%
ESG component	Average efficiency ratio ¹ based on the HLAG sustainability bond program	20%	6.4	OK	117%

¹ The AER for the 2024 financial year is subject to verification by the certification company DNV. Minor changes and effects on the actual payout amount could arise as a result of the review by DNV.

For further information on the 2020 LTIP ESG, please refer to the explanations in the Section "Long-term variable remuneration".

The following table provides a detailed overview of the remuneration components actually promised to the individual members of the Executive Board for the 2022 financial year and shows that the maximum remuneration was adhered to for all members of the Executive Board active in the 2022 financial year. Accordingly, with regard to the short-term variable remuneration in the 2022 financial year, the table includes the annual bonus that was promised for the 2022 financial year and paid out in the 2023 financial year. For the 2022 financial year, this was capped at EUR 900,000 for Rolf Habben Jansen, EUR 660,000 for Mark Frese and EUR 600,000 for Dr Maximilian Rothkopf. The payment from long-term variable remuneration 2020 LTIP ESG, 2022 tranche (period 2022–2024) was capped at EUR 1,500,000 for Rolf Habben Jansen, EUR 1,050,000 for Mark Frese and EUR 975,000 for Dr Maximilian Rothkopf. Due to her arrival during the year, the payment amounts for Donya-Florence Amer were capped at EUR 550,000 for short-term remuneration and EUR 893,000 for long-term remuneration and, due to his departure during the year, the payment amounts for Joachim Schlotfeldt were capped at EUR 300,000 and EUR 375,000 respectively.

¹ Unlike the other members of the Executive Board, Joachim Schlotfeldt was entitled to a company pension as a result of his long-standing service to the Company prior to his appointment as an Executive Board member (defined benefit pension). This was supplemented by the annual conversion of 20% of fixed annual remuneration into pension entitlements. Unlike with the other Executive Board members, the Company formed provisions for this purpose.

21

Application of malus and clawback provisions

It was not necessary to make use of the option to retain or recall variable remuneration components in the 2024 financial year.

Payments from third parties to active Executive Board members

In the past financial year, no member of the Executive Board received payments or corresponding commitments from a third party with regard to their activities as an Executive Board member.

Remuneration of former Executive Board members

The following table shows the remuneration granted and owed to former Executive Board members in the 2024 financial year and the previous year as per Section 162 (1) (1) of the German Stock Corporation Act (AktG). In accordance with Section 162 (5) of the German Stock Corporation Act (AktG), personal disclosures regarding former Executive Board members are omitted if they departed from the Executive Board or the lastly served body prior to 31 December 2014.

The other remuneration components in the case of Joachim Schlotfeldt in the 2023 financial year comprise a bonus payment for the 2022 financial year (EUR 300,000) and payment amounts of the LTIP tranches allocated in the 2020, 2021 and 2022 financial years (2020 LTIP, 2020 tranche: EUR 750,000; 2020 LTIP, 2021 tranche: EUR 750,000; 2020 LTIP ESG, 2022 tranche: EUR 375,000).

REMUNERATION OF THE MEMBERS OF THE SUPERVISORY BOARD

Principles of the remuneration system

Remuneration of the Supervisory Board is regulated in Article 12 of the Company's articles of association. The remuneration system reflects the responsibilities and activities of the Supervisory Board members. In addition to a reimbursement of their expenses and the VAT payable on their remuneration and expenses, the members of the Supervisory Board receive fixed annual remuneration. There is no variable remuneration component. There is also no remuneration for former members of the Supervisory Board.

The remuneration of the Supervisory Board members was most recently set by the Annual General Meeting on 25 May 2022 through an amendment to Article 12 of the Company's articles of association. This amendment to the articles of association took effect at the time it was entered in the commercial register on 17 June 2022. On 25 May 2022, the Annual General Meeting confirmed the remuneration system on which the remuneration of the Supervisory Board members is based. The fixed annual remuneration of the Supervisory Board is EUR 270,000 for the Chair, EUR 135,000 for deputies and EUR 90,000 for other members. The Chair of the Audit and Financial Committee receives additional remuneration of EUR 120,000, and the other committee members each receive EUR 40,000 for every full financial year of their membership. The Chair of the Presidential and Personnel Committee receives additional remuneration of EUR 60,000, and the other committee members each receive EUR 30,000. If Supervisory Board members receive remuneration for activities on the Supervisory Board of a subsidiary of Hapag-Lloyd AG, this remuneration is offset against the aforementioned remuneration.

The members of the Supervisory Board also receive an attendance fee of EUR 1,500 for every meeting of the Supervisory Board and its committees that they attend.

For Supervisory Board members who are only on the Supervisory Board for part of the financial year, remuneration is granted pro rata, rounded to full months. This also applies to increases in remuneration for the Chair of the Supervisory Board and their deputies as well as to increases in remuneration for membership and chairmanship of a Supervisory Board committee.

The cap on the remuneration of the Supervisory Board members is equal to the total fixed remuneration, the amount of which depends on the individual duties performed within the Supervisory Board and its committees, and the attendance fee, which is based on attendance of meetings of the Supervisory Board and its committees.

Individualised disclosure of the remuneration of the Supervisory Board members

The following table shows the remuneration granted and owed to the Supervisory Board members in the 2024 financial year and the previous year as per Section 162 (1) (1) of the German Stock Corporation Act (AktG), including the respective relative percentages. In accordance with Article 14.5 of the Company's articles of association, all the components of the Supervisory Board remuneration become due at the close of the Annual General Meeting, which receives the annual financial statements for the respective financial year or decides on their approval. Accordingly, the line "2024" in the following table contains the remuneration paid to the Supervisory Board members in the 2024 financial year for their Supervisory Board activities and committee activities in the 2023 financial year and the attendance fees for attendance of Supervisory Board meetings in the 2023 financial year. The same applies analogously to the previous year's figures. 24

¹ The Supervisory Board member Maren Ulbrich, who was appointed as a new member by court order in the 2024 financial year, is not included, as the remuneration allocated to her for her activities in the 2024 financial year will not be paid (i.e. granted as defined in the German Stock Corporation Act [AktG]) until the 2025 financial year in accordance with Article 14.5 of the Company's articles of association. Accordingly, Maren Ulbrich will be included in the Remuneration Report 2025 for the first time.

The Chair of the Supervisory Board is provided with an office and assistant and a driver service so that they can perform their duties. If the Chair of the Supervisory Board attends certain appointments and performs certain representative duties on behalf of Hapag-Lloyd AG to promote the business of the Company and foster a positive public image of the Company and does so for no fee, they may use the Company's internal resources to prepare for and perform these activities for no fee. They are reimbursed for expenses incurred in connection with these activities at an appropriate amount.

COMPARISON OF THE DEVELOPMENT OF REMUNERATION AND EARNINGS

In accordance with Section 162 (1) (2) (2) of the German Stock Corporation Act (AktG), the following table shows the annual change in the remuneration of the current and former Executive Board members and the current Supervisory Board members, the development of Hapag-Lloyd's earnings and the average remuneration of the employees on the basis of full-time equivalence over the last five financial years.

The development of earnings is shown on the basis of the Group's key indicator EBIT. As a key performance indicator, EBIT is also part of the financial targets of the short-term variable remuneration (bonus) of the Executive Board and, since 2023, a component of its long-term variable remuneration (2023 LTIP) as well, and therefore has a significant influence on the amount of remuneration paid to the Executive Board members. Supplementary to this, the development of the annual net profit of Hapag-Lloyd AG as per Section 275 (3) (16) of the German Commercial Code (HGB) is shown.

For the former members of the Executive Board as well as those active in the financial year and for the members of the Supervisory Board, the remuneration granted and owed in the respective financial year as defined in Section 162 (1) (1) of the German Stock Corporation Act (AktG) is used a basis when calculating the annual change in remuneration.

The change in average remuneration of the employees is presented based on the Hapag-Lloyd Group's total workforce worldwide, including apprentices, which comprised an average of 15,678 employees in the 2024 financial year (full-time equivalent; previous year: 15,883). The average remuneration of the employees essentially comprises the personnel expenses for wages and salaries, for fringe benefits, for employer contributions to social insurance and for the variable remuneration components attributable to the financial year.

The Supervisory Board member Maren Ulbrich, who was appointed as a new member by court order in the 2024 financial year, is not included, as the remuneration allocated to her for her activities in the 2024 financial year will not be paid (i.e. granted as defined in the German Stock Corporation Act [AktG]) until the 2025 financial year in accordance with Article 14.5 of the Company's articles of association. Accordingly, Maren Ulbrich will be included in the Remuneration Report 2025 for the first time.

INDEPENDENT AUDITOR'S REPORT

To Hapag-Lloyd Aktiengesellschaft, Hamburg

Report on the audit of the remuneration report

We have audited the attached remuneration report of Hapag-Lloyd Aktiengesellschaft, Hamburg, for the financial year from 1 January to 31 December 2024, including the related disclosures, prepared to meet the requirements of Section 162 AktG [Aktiengesetz: German Stock Corporation Act].

Responsibilities of management and the Supervisory Board

The management and the Supervisory Board of Hapag-Lloyd Aktiengesellschaft are responsible for the preparation of the remuneration report, including the related disclosures, in accordance with the requirements of Section 162 AktG. The management and the Supervisory Board are also responsible for such internal control as they have determined necessary to enable the preparation of the remuneration report, including the related disclosures, that is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities

Our responsibility is to express an opinion on this remuneration report, including the related disclosures, based on our audit. We conducted our audit in accordance with the German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the remuneration report, including the related disclosures, is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts, including the related disclosures, in the remuneration report. The procedures selected depend on the auditor's professional judgement. This includes an assessment of the risks of material misstatement, whether due to fraud or error, in the remuneration report, including the related disclosures. In assessing these risks, the auditor considers the internal control system relevant for the pre-paration of the remuneration report, including the related disclosures. The objective is to plan and perform audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control system. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management and the Supervisory Board, as well as evaluating the overall presentation of the remuneration report, including the related disclosures.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, on the basis of the knowledge obtained in the audit, the remuneration report for the financial year from 1 January to 31 December 2024, including the related disclosures, complies in all material respects with the financial reporting requirements of Section 162 AktG.

Other matter - formal examination of the remuneration report

The substantive audit of the remuneration report described in this independent auditor's report includes the formal examination of the remuneration report required by Section 162 (3) AktG, including issuing an assurance report on this examination. As we have issued an unqualified opinion on the substantive audit of the remuneration report, this opinion includes the conclusion that the disclosures pursuant to Section 162 (1) and (2) AktG have been made, in all material respects, in the remuneration report.

Limitation of liability

The terms governing this engagement, which we fulfilled by rendering the aforesaid services to Hapag-Lloyd Aktiengesellschaft, are set out in the General Engagement Terms for Wirtschaftsprüfer and Wirtschaftsprüfungsgesellschaften [German Public Auditors and Public Audit Firms] as amended on 1 January 2024. By taking note of and using the information as contained in this auditor's report, each recipient confirms to have taken note of the terms and conditions laid down therein (including the limitation of liability of EUR 4 million for negligence under Clause 9 of the General Engagement Terms) and acknowledges their validity in relation to us.
