

Sustainability-Linked Finance Progress Report

Hamburg, July 2021

In 2020, the AER of Hapag-Lloyd's Owned Fleet amounted for 6.95, which is below the SPT Trajectory of 7.30

Comment

- As part of the Sustainability-Linked Bond Framework we commit ourselves to reduce the CO₂ emission for our Owned Fleet by 60% until 2030 (compared to 2008).
- From 2018 onwards an annual Sustainability Performance Target ("SPT") Trajectory has been drawn which will result in achieving the 60% reduction target in 2030.
- In 2020, the AER of our Owned Fleet amounted for 6.95, which is below the SPT Trajectory of 7.30.
- The calculation of the AER has been verified by external classification society DNV (pls. see separate confirmation).
- We confirm that for 2020 the respective IMO DCS Statements of Compliance for fuel oil consumption reporting have been issued for all vessels of our Owned Fleet.
