

Sustainability-Linked Finance Progress Report

Hamburg, July 2026

In 2025, the AER of Hapag-Lloyd's owned fleet amounted to 5.57, below the SPT Trajectory of 6.70

AER

Comment

- As part of the Sustainability-Linked Bond Framework, we commit ourselves to reduce the CO2 emission for our owned fleet by 60% until 2030 (compared to 2008)
- From 2018 onwards an annual Sustainability Performance Target (“SPT”) Trajectory has been drawn, which will result in achieving the 60% reduction target in 2030
- In 2025 the Annual Efficiency Ratio (“AER”) of our operated owned fleet amounted to 5.57, which is below the SPT Trajectory of 6.70
- The calculation of the AER has been verified by external classification society DNV (please see separate confirmation)
- We confirm that for 2025 the respective IMO DCS Statements of Compliance for fuel oil consumption reporting have been issued for all vessels of our owned fleet
