

## Here's an update on local charges in Belgium and the Netherlands

Dear Customer,

We want to make sure that you keep yourself updated with the latest fees for your preferred origin and destination countries. Here's an update on **Customs Examination charge (CEX)** for container scanning. This charge will apply to all sea freight containers imported into Belgium and the Netherlands from **February 1, 2024**, until further notice\*.

Please find below the latest updates:

### Import Belgium (all container types):

- EUR 260 per container

### Import Netherlands (all container types):

- EUR 210 per container

\*The **CEX** only applies to containers that have been selected by the authorities for scanning checks on the terminal sites. The CEX covers handling to and from customs scan and the additional administration of this scanning. It does not cover customs physical inspections or additional transport outside the terminals.

Please remember that all relevant information is always available to you in the tariff section of our **Online Business Suite**. If you should require additional information, please contact our customer service team at your **location**, who will guide you based on your individual situation.

Best regards,

Your Hapag-Lloyd Customer Support Team Benelux
