

Rail Service

Le Havre – Vierzon – Izon – Le Havre

Hapag-Lloyd understands sustainability as one of our core responsibilities. We strive to develop innovative sustainable solutions moving your cargo door-to-door.

To offer the best-in-class Inland products Hapag-Lloyd France is continuously expanding its CO₂-reduced services. Combining our new rail service on the route Le Havre – Vierzon – Izon – Le Havre with green trucks for the first and the last mile you choose the most environmental-friendly and most efficient mode of transport available.

Your Benefits

- Reduce your carbon footprint using rail services combined with green trucking, producing less CO₂ emissions
- Direct connections with deep sea terminals providing a seamless intermodal transport
- Enjoy the convenience of a more reliable mode of transport by using train on the long route and avoid complications of appointments at Le Havre (necessary for truck moves)

Our Offer

- Weekly train service for exports from the Bordeaux region to Le Havre and imports between Le Havre and either Vierzon or Bordeaux region
- A more sustainable intermodal solution for your cargo's transport between Vierzon and Izon and Le Havre with the potential of significantly reducing CO₂ emissions
- Direct calls at port of Terminal De France (TDF) and Terminal Atlantique (CNMP)
- Competitive ramp and store door solutions
