WSN Service - North America West Coast to/from New Zealand/Australia

October 15, 2018

Dear Customer,

Hapag-Lloyd is pleased to advise you about the planned improvement to our service between the North American West Coast and Australia/New Zealand.

Our WAS and WAN Service will be combined into a single string rotation to be called the “WSN” - covering the following ports:

Oakland-Seattle* - Vancouver* - Long Beach – Auckland – Sydney - Melbourne- Adelaide* - Sydney – Tauranga - Papeete* - Oakland.

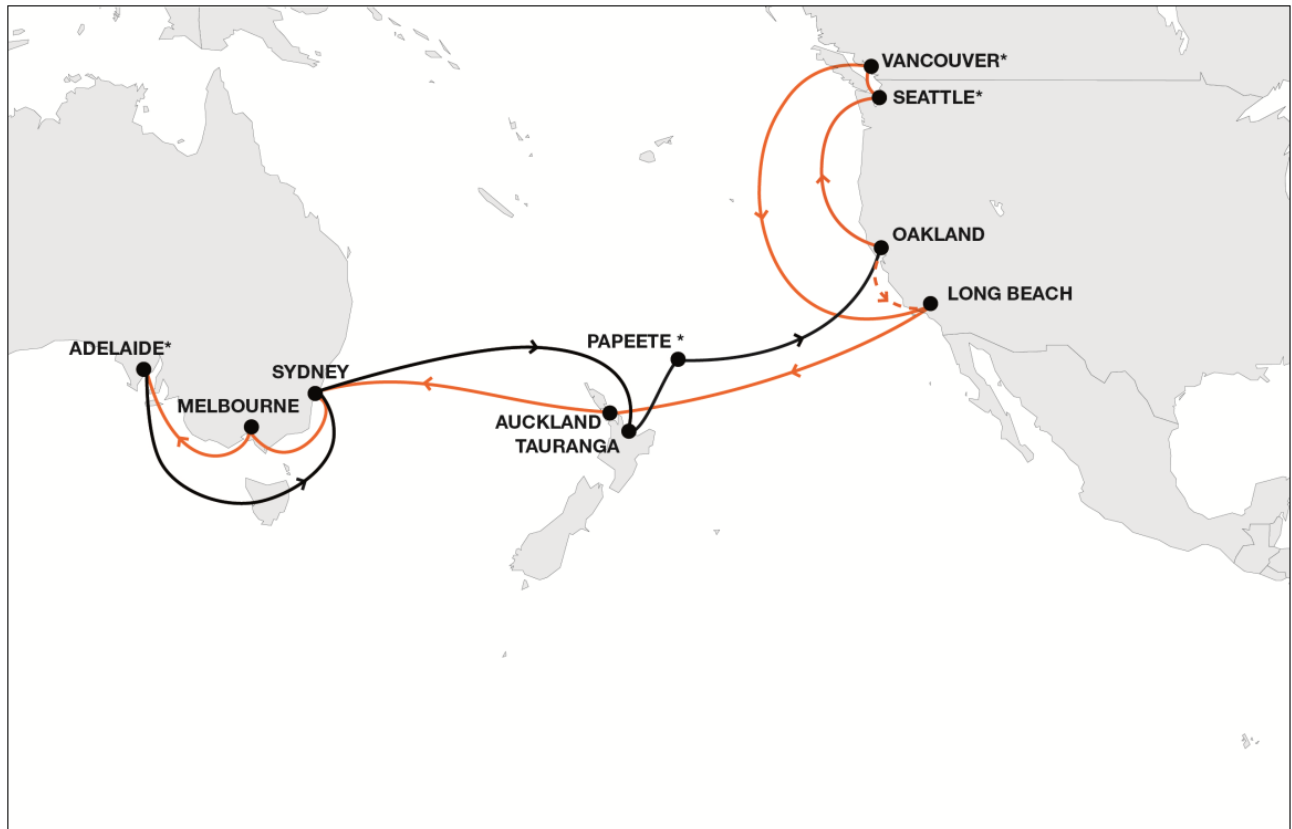

The PNW market (Seattle and Vancouver) will continue to be served on a fortnightly basis, along Papeete (northbound). All Fiji cargo will be carried on a weekly feeder service via Tauranga, New Zealand.

Southbound Service Highlights:

- The only direct service from the North American West Coast to Australia and New Zealand
- Weekly fixed day service
- Trans-Tasman trade coverage between Australia and New Zealand, in addition to other services
- Direct service from Long Beach to Adelaide on a fortnightly basis

Northbound Service Highlights:

- Fast, direct weekly service to Oakland and Long Beach for dry and reefer markets
- Fortnightly direct calls at Adelaide*, Papeete, Vancouver and Seattle
- Direct Oceania calls at Adelaide*, Sydney, Melbourne and Tauranga, with relay and intermodal options for all major origin/destinations

For further information, please contact your local Hapag-Lloyd office.

Kind regards

Hapag-Lloyd AG
