Hapag-Lloyd's East-West Service Network offers a broad coverage across key trades with complementing intra-regional connectivity

Gemini Cooperation will enable us to offer significantly higher quality liner services to our customers

Our value proposition ...

RELIABILITY

CONNECTIVITY

SUSTAINABILITY

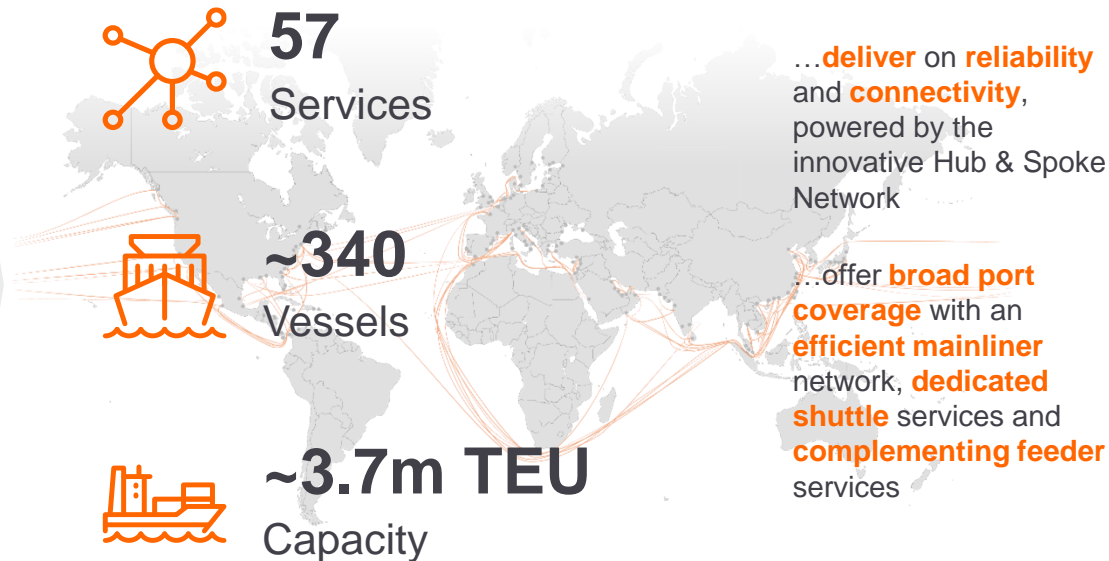

... your benefit

- Enable >80% on-time delivery of your cargo
- Link all your relevant markets with fast and resilient transit times
- Accelerate the decarbonization of your supply chains

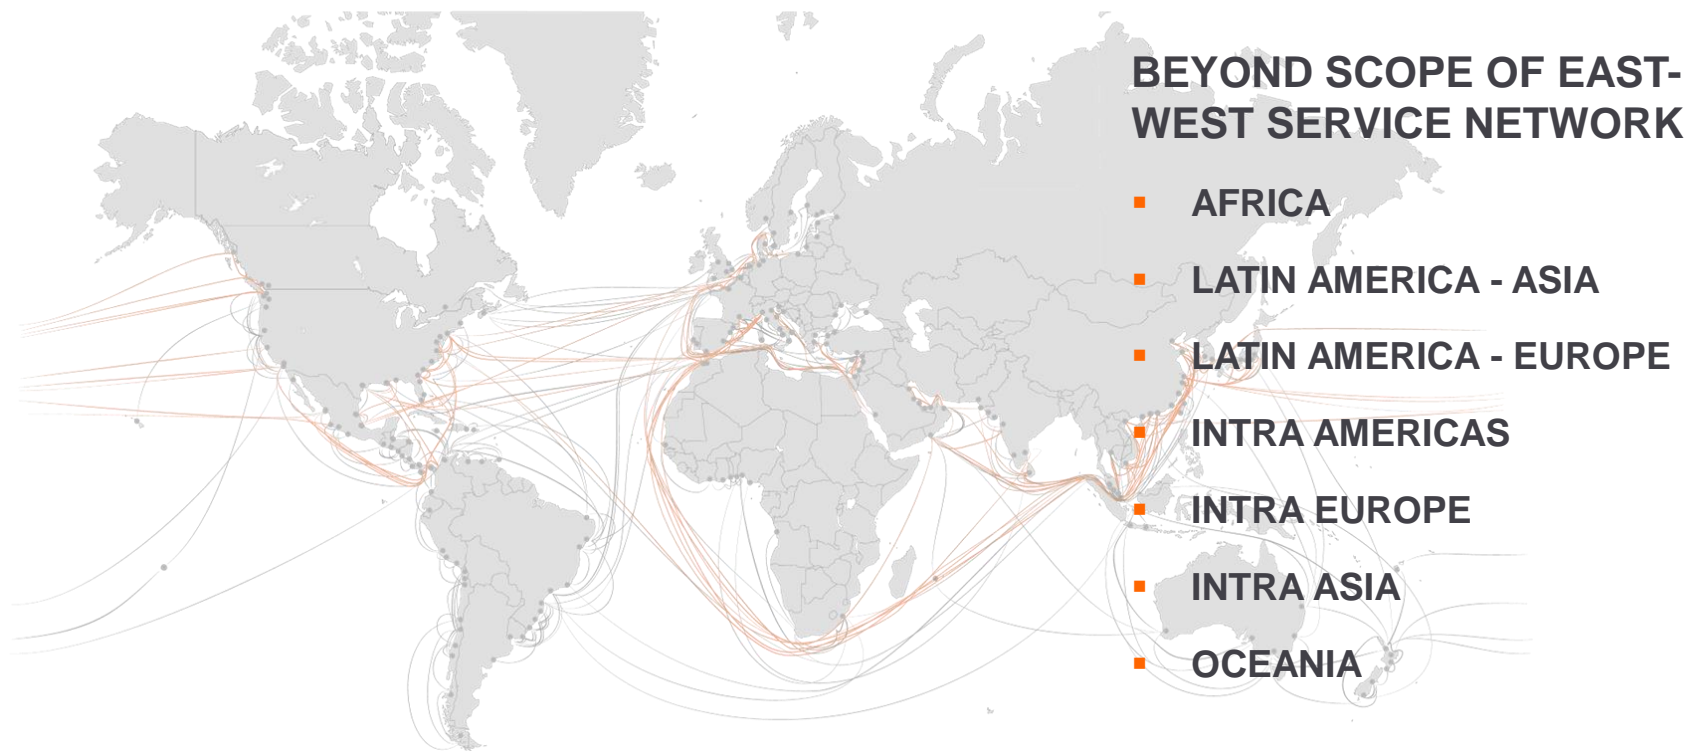

Gemini Cooperation will be an integral part of Hapag-Lloyd's overall East-West Network ...

- After thorough consideration, **Hapag-Lloyd and Maersk have jointly confirmed** the expected **network design** for our **Gemini Cooperation**, which is set to launch on 1 February 2025
- As the situation in the Red Sea remains highly dynamic, we plan to **continue to sail around the Cape of Good Hope**
- The **safety** and well-being of our **seafarers**, our **vessels** and the **cargo** of our customers **are key**
- We will **return to the Red Sea** when it is **safe** to do so

Our Gemini Cooperation Cape Network will...

... and will be an integral part of Hapag-Lloyd's overall network of in total around 120 services globally

Agenda

A.	Hapag-Lloyd East-West Service Network at a Glance	2
B.	Trade Overview Asia - Europe	7
C.	Trade Overview Atlantic	28
D.	Trade Overview Transpacific	52
E.	Trade Overview Middle East	72
F.	Overview Shuttle Network and Intra Regional Trades	88

The joint network uses a hub and spoke model to make it much more reliable and resilient, with fast connectivity

NETWORK PRINCIPLES

- **Setup** with 2-3 main port calls per region including strategic hubs enable shorter round voyage times and better reliability
- **All hub terminals are carefully selected for top quality and reliability plus mostly owned and/or controlled** by Hapag-Lloyd or Maersk
- Hub & Spoke with multiple shuttles provide **wide coverage** and **fast connections**
- **Synchronized** connections from **mainliners** to **mainliners** and **to shuttles** significantly reduce dwell times

This network is much more **reliable** and **interconnected** than traditional setups, increasing **resilience** against external effects. We will reach this through a combination of streamlined port calls, controlled hubs and dedicated shuttle services.

Our dedicated shuttles complement our network with fast and reliable connections within the regions and serve Intra Regional Trades

HIGHLIGHTS

- **Extensive shuttle network** covering Europe, Asia, Middle East and North America
- **Shuttles** are dedicated to **serve** the **Gemini Cooperation partners**
- **Shuttles** are **deployed** by the **Gemini Cooperation partners**
- Shuttle network offers **competitive solutions** for **Intra Regional Trade** cargo
- **Shuttles will connect** to **selected other Hapag-Lloyd services** that are not part of the Gemini Cooperation

Our feeder network will enhance our broad connectivity in specific markets

Complementing Feeder Network

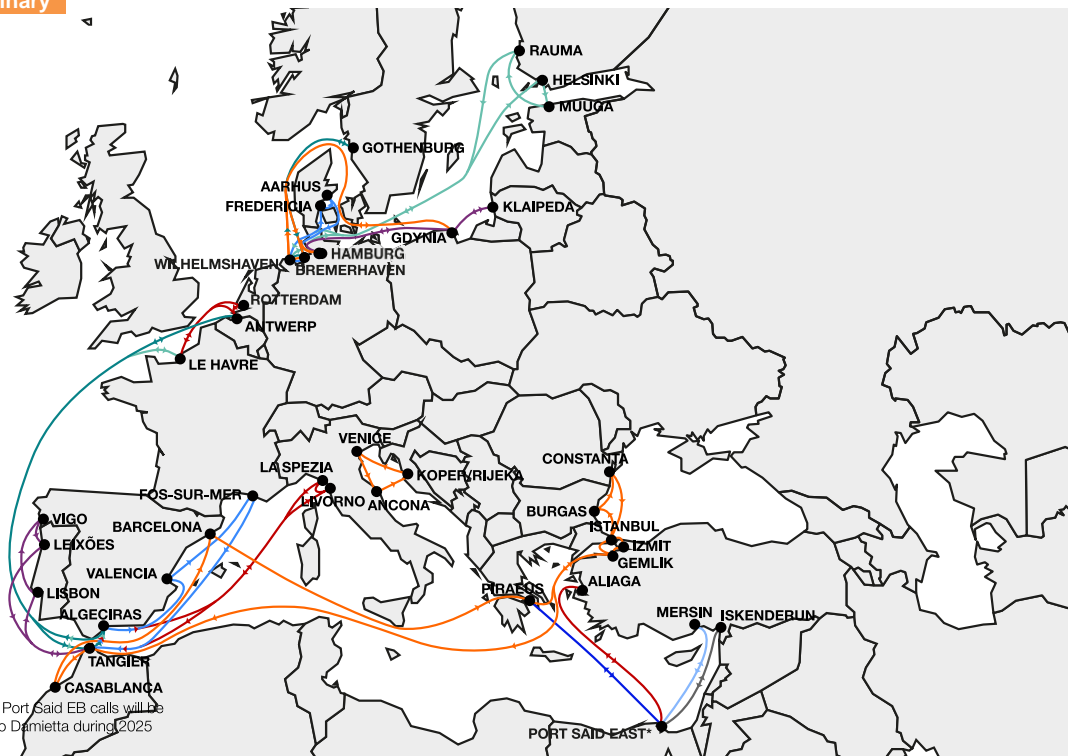

- Smaller sized vessels operated by either Hapag-Lloyd or strategic suppliers
- Extension of our existing hub and shuttle port coverage ensuring seamless connectivity in specific markets
- Next to our mainliner and shuttle network, an integral part to support our customers cargo planning globally
- Supporting the optimization of routes and vessel deployments to contribute further to our reliability goals
