

RLA Mexico Imp/Exp Door Truck Power availability “Heat Map”

- ✓ Notes:
- ✓ This Map is just a visual reference of the average truck assignment time in Mexico for Inland Service.
 - ✓ All requests for truck assignment have to be received 48 hrs. before the required day at plant. This does not apply in First/Last mile movements.
 - ✓ Single movements, OOG, DG, are subject to truck availability as they are considered specialized cargo.
 - ✓ If it is absolutely necessary a single movement, an additional charge of 50% on top of the current LAIN rate under the code Exports ITO / Imports ITD will apply. In all cases this is subject to truck availability. The service has to be requested minimum 72 hours in advanced.
