

How to submit a rate agreement number and MR match code in contract number field

Hapag-Lloyd can extract the MR match code from the contract field, if the MR match code is sent together with the rate agreement number in following formats:

- Rate agreement number | space | MR match code
- Rate agreement number | / | MR match code
- MR match code | space | Rate agreement number
- MR match code | / | Rate agreement number

Examples:

- 1568974 ABCDEF1
- 1568974 ABCDEF 1
- ABCDEF1 1568974
- ABCDEF 001 1568974
- 1568974/ABCDEF001
- 1568974/ABCDEF 1
- ABCDEF1/1568974
- ABCDEF 1/1568974
- 1568974 / ABCDEF 1
- 1568974 / ABCDEF 1
- ABCDEF 1 / 1568974
- ABCDEF 1 / 1568974

- Sending a space between RA number and MR match code is mandatory if the character "/" is not used as delimiter.
- Match codes with less than six characters do not need to be filled with spaces.
- Supplements with less than three characters do not need to be filled with zeros.
- Sending a space between match code and supplement is not necessary, but possible.
- Sending a space before and after the character "/" is not necessary, but possible

How to submit a rate agreement number and MR match code in free text remark field

Hapag-Lloyd can extract the rate agreement number and MR match code from the free text remark field, if they are sent in the following formats:

- RA: | Rate agreement number | MR: | MR match code
- S/C: | Rate agreement number | MR: | MR match code
- MR: | MR match code | RA: | Rate agreement number
- MR: | MR match code | S/C: | Rate agreement number

Examples:

- RA:1568974 MR:ABCDEF123
- RA: 1568974 MR:ABCDEF 123
- MR: ABCDEF001 RA:1568974
- MR: ABCDEF 1 RA: 1568974
- S/C:1568974 MR:ABCDEF1
- S/C: 1568974 MR:ABCDEF 1
- MR:ABCDEF1 S/C:1568974
- MR:ABCDEF 1 S/C: 1568974

- Remarks field shall only be used if the customer system does not provide a contract field or character limitations
- Sending a space between "RA:" or "S/C:" and RA number is not necessary, but possible.
