

## Update - Rail Services stoppage from/to Genoa SECH

May, 16<sup>th</sup> 2024

Dear Customer,

we inform you that the civil works in the area nearby Genoa SECH port terminal (Parco Rugna) have been completed; operators are still waiting for final green-light from Port Authority that is taking more time than expected to be received.

We will promptly inform you as soon as we receive the ultimate advice about re-opening date.

In meantime rail operations at SECH keep on being suspended till the end of renewal works.

Until the official re-opening, for all vessels calling Sech terminal we will be able to manage containers from / to Milan and Lombardian Area at the standard Combined Rail conditions.

Until further notice all bookings confirmed under combined rail mode to/from SECH to/from Padova and Modena areas will be subject to a surcharge of Euro 130 / container.

We apologize for confusion caused and please do not hesitate to contact our dedicated customer service team at [italy@service.hlaq.com](mailto:italy@service.hlaq.com) if you require further clarification

Thank you for your continued support.

Kind regards

Hapag-Lloyd (Italy)
