To Whom It May Concern

REF : Scanning Fee applicability in Constanta Port

Dear Partners,

We would like to share with you more details regarding the scanning services provided by our DP World / CSCT Terminal.

As already shared by our DP World Partner, the scanner became operational in **June 2024**. After a three-month calibration period, it has been utilized by the customs authorities, **starting in October 2024**, for scanning truck traffic unloaded at our RoRo service terminal. Currently, the scanning process is applied to **all full import and transshipment containers** discharged from vessels operated at CSCT terminal. Additionally, the Customs Authority utilizes the scanner for other full containers routed from other terminals within the Port of Constanta. Customs representatives involved in the scanning process have expressed their satisfaction with the quality of the information provided. Upon request, the Customs Authority can provide an official statement
In view of the above, we would like to inform you that **starting August 1st, 2025**, we will begin **billing for this service**, as published in our Romania Local Charges file.

With Best Regards,

Hapag-Lloyd Romania SRL
