

Interruption of rail services from and to Genoa, IT - January 11, 2024 to March 3, 2024

Dear Daniela,

You might have read on our [Operational Updates](#) that the rail services from and to Genoa SECH have been interrupted from January 11, 2024 to March 3, 2024. In case you missed it, here's the information that you need to know.

Due to ongoing civil works in the Genoa SECH port terminal (Parco Rugna) nearby area, the Port Authority confirmed that rail operations at SECH must be suspended for safety reasons with immediate effect. This is expected to last until March 3, 2024.

During this period, for all vessels calling SECH terminal ALL containers from and to Milan and Lombardian Area will be managed at the standard Combined Rail conditions. All bookings confirmed under combined rail mode to and from SECH to and from Padova and Modena areas will be subject to a surcharge of Euro 130 per container. Kindly refer to our [tariff section](#) for a complete overview of charges.

If you should require assistance, please reach out to our teams at italy@service.hlag.com who will assist you based on your individual situation.

Best regards,

Maria-Fernanda
