

# Secure Container Release

The electronic Delivery Order solution

Getting Started with the SCR Web app  
[app.securecontainerrelease.com](http://app.securecontainerrelease.com)

# SCR is about

Secure Container Release is all about improving your safety, security and privacy.

## 1 Safety of your Staff

The use of PIN-codes have led to organized crime units approaching Staff & offering them money in return for PIN-codes.

Digital Pickup rights are tokenized, thus owned by one party at a time & can not be duplicated nor can it be transferred without a digital trace.

## 2 Security of your Data & Systems

Passwords are centralised in one database creating a single source of failure.

Your public & private keys are stored locally on your infrastructure, using digital wallets, for superior user experience.

## 3 Privacy of your commercial Information

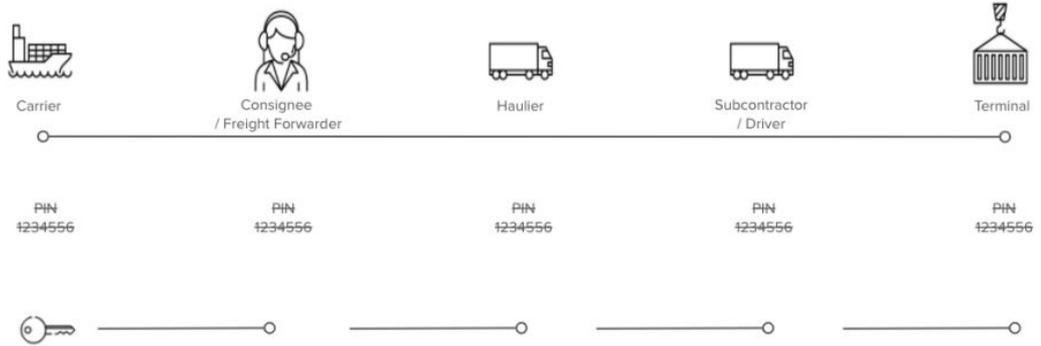

Sharing data with centralised cloud platforms implies data confidentiality risks.

Privacy of your sensitive information guaranteed thanks to a decentralised architecture and peer-to-peer communication.

# SCR is about

Secure Container Release is all about improving your safety, security and privacy.

Secure Container Release (SCR) tokenizes the right to pick up a container. There is a digital flow between all parties involved, without the risk of pincodes being misused.

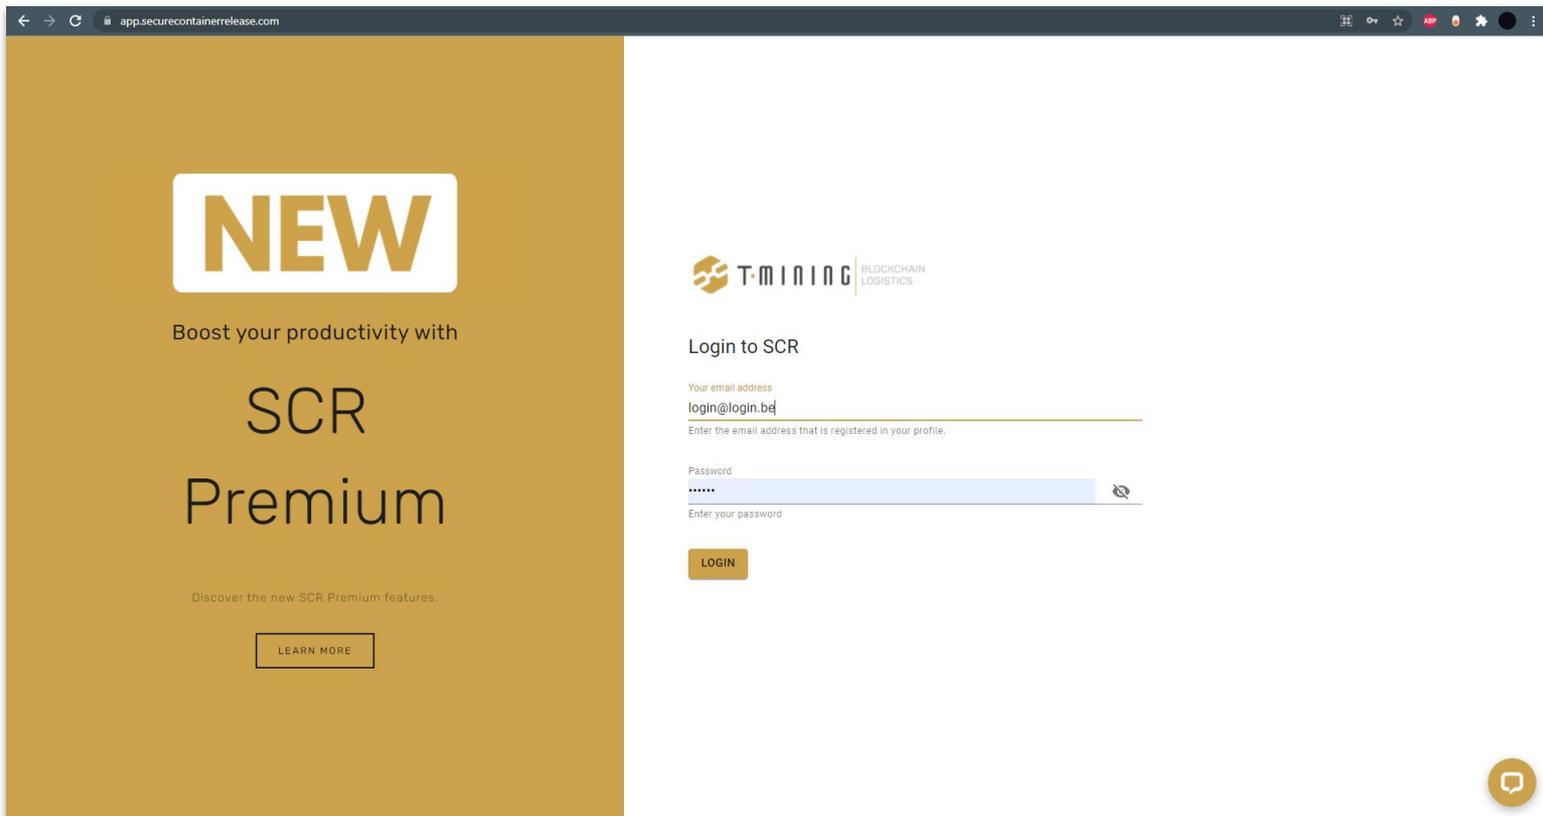

# Content

Here we explain you the most important functionalities of the SCR Webapp. Available in SCR Basic and SCR Premium.

## Overview of the different SCR features, available in SCR Basic and SCR Premium:

1. How to login?
2. Using the Main screen.
3. Using the search-functionality.
4. Show & hide columns with the Column-chooser.
5. Using the filter.
6. Using the Transfer and Revoke.
7. Using the Pincode.
8. Using the Assign/Unassign.
9. Adding Drivers.
10. Exporting to PDF.
11. Making an Excel export.
12. Settings & Preferences.
13. Find help & support.

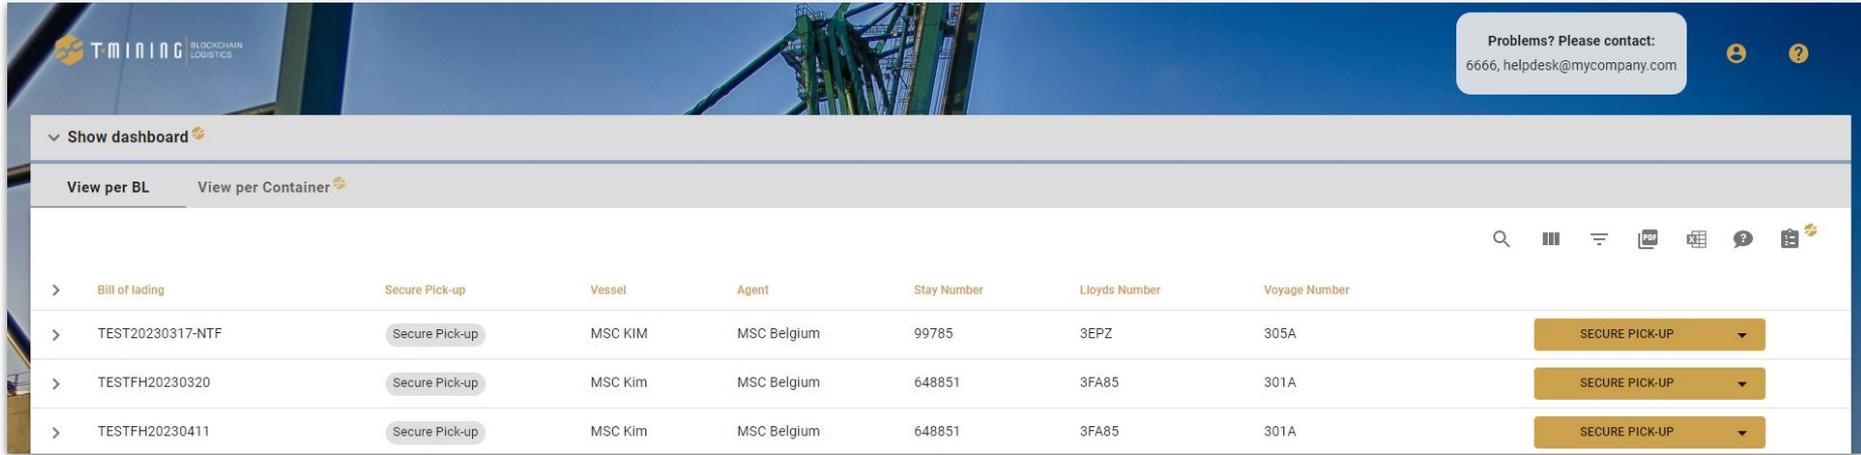

# 1 - How to login?

The screenshot shows a web browser window with the address bar displaying `app.securecontainerrelease.com`. The page is split into two main sections. On the left, a dark brown banner features a white box with the word "NEW" in large, bold, brown letters. Below this, the text "Boost your productivity with" is followed by "SCR Premium" in a large, dark font. At the bottom of the banner, it says "Discover the new SCR Premium features." and includes a "LEARN MORE" button. On the right, the main content area is white. At the top, the "T-MINING" logo is displayed next to the text "BLOCKCHAIN LOGISTICS". Below the logo, the heading "Login to SCR" is shown. There are two input fields: "Your email address" containing the text "login@login.be" and "Password" containing six dots. Below the password field is a small eye icon. A "LOGIN" button is positioned below the form. In the bottom right corner of the page, there is a small circular chat icon.

Login to the Secure Container Release webapp via [app.securecontainerrelease.com](https://app.securecontainerrelease.com)

## 2 - Using the Main screen.

The screenshot shows the main interface of the TMINING Blockchain Logistics system. At the top left is the logo and name. At the top right is a contact information box. Below the header is a navigation bar with 'Show dashboard' and view options 'View per BL' and 'View per Container'. The main content area features a table of bills of lading with a search and filter toolbar on the right.

>	Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number	
>	TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP ▾
>	TESTFH20230320	Secure Pick-up	MSC Kim	MSC Belgium	648851	3FA85	301A	SECURE PICK-UP ▾
>	TESTFH20230411	Secure Pick-up	MSC Kim	MSC Belgium	648851	3FA85	301A	SECURE PICK-UP ▾

The main screen gives an overview of the bills of lading for which releases are received by your organization.

When first using SCR, this screen will not show any history. Only when you received a new release since onboarding to SCR, it will be shown here. Please contact your Carrier or Freight Forwarder for more info.

### 3 - Using the search functionality.

The screenshot shows the TMINING Blockchain Logistics dashboard. At the top left is the logo 'TMINING | BLOCKCHAIN LOGISTICS'. At the top right, there is a contact information box: 'Problems? Please contact: 6666, helpdesk@mycompany.com'. Below the header, there is a 'Show dashboard' button. The main content area has two tabs: 'View per BL' (selected) and 'View per Container'. A search bar contains the text 'Where is my release?'. Below the search bar is a table with the following columns: 'Bill of lading', 'Secure Pick-up', 'Vessel', 'Agent', 'Stay Number', 'Lloyds Number', and 'Voyage Number'. Below the table, a message states: 'Sorry, no matching records found for your search query'. At the bottom right of the table area, there is a pagination control: 'Releases per page: 10' and '0-0 of 0'. A white arrow points to the search bar, and a grey arrow points to the search icon in the top right of the table area.

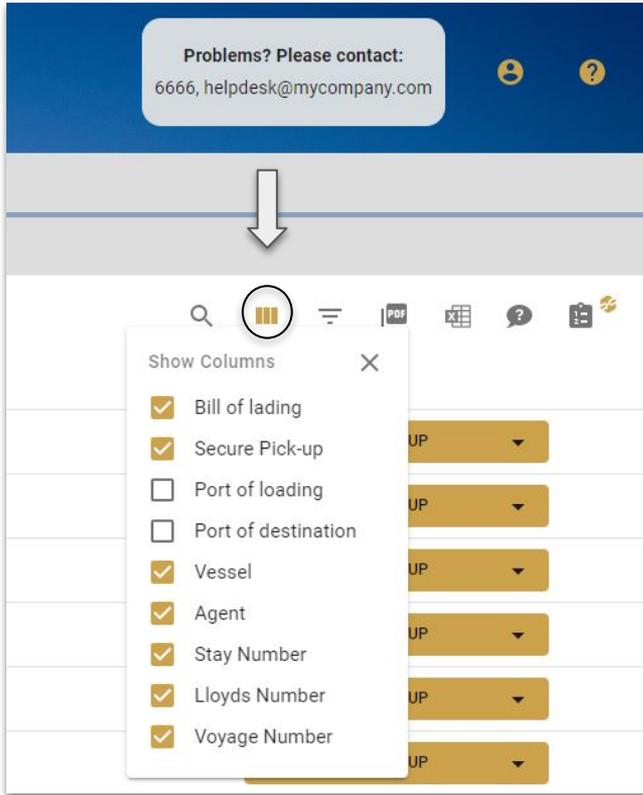

The search function enables you to filter the table and the PDF/Excel-output on any field (BL, container-number, port, etc..).

If you can't find the release you're looking for, your carrier must have not released it yet.

Please try to always contact your carrier **first** and ask them to do the necessary.

If they claim that it is released, the user can try to refresh their page with **CTRL + F5**. This will load all the new data within the application.

#### 4 - Show & hide columns with the Column-chooser.

The column-chooser allows you to hide or show specific columns.

## 5 - Using the filter.

The screenshot shows a web application interface. At the top left, there is a contact information box: "Problems? Please contact: 0666, helpdesk@mycompany.com". Below this is a navigation bar with various icons. The main content area displays a table with columns "Lloyds Number" and "Voyage Number". The table contains several rows, each with a dropdown menu for actions like "SECURE PICK-UP", "TRANSFER TO NEXT PARTY", and "ASSIGN TO MY DRIVER". At the bottom of the table, there is a pagination control: "Releases per page: 10" and "1-10 of 12".

On the right side, there is a "Filter Table" sidebar. It contains several input fields and dropdown menus for filtering the table data:

- Bill of lading
- Container Nbr
- Vessel
- Voyage Number
- Turn-in loc
- Release status
- Pick up terminal
- Pick up port
- Valid
- Show only valid
- Transfer status

At the bottom of the filter sidebar, there are two buttons: "APPLY" and "RESET".

The filter enables you to filter the table and the PDF/Excel-output on one or a combination of fields (AND-relationship).

Don't forget to click on 'APPLY' after filtering by your choice! Clicking on 'RESET' will clear out all applied filters.

## 6 - Using the Transfer and Revoke (How to transfer?)

The screenshot shows a web interface for managing containers. At the top, there are release identifiers: 'RELEASE-API-TEST-1612', 'AAA', 'BBB', '00001', '0002', and '0003'. A '3' is placed above the 'TRANSFER TO NEXT PARTY' button. A dropdown menu is open, showing options: 'Transfer to next party', 'Revoke my transfer', 'Assign to my driver', 'Unassign', 'Get a pincode', and 'Get an Audit trail'. A '2' is placed above the dropdown arrow. A '1' is placed to the left of the container table. The table has columns: Release status, Container Nbr, Released On, Valid from, Valid till, Pick up port, Pick up terminal, Truck turn-in loc, Truck turn-in ref, Received from, and Tr. Three rows are visible, with the third row selected (checkbox checked).

Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Tr
<input type="checkbox"/> Released for pickup	CSQU32345690	10/03/2022	Discharge	05/01/2025	ECTDCD	terminal	aref	MSC Belgium	PI	
<input type="checkbox"/> Released for pickup	CSQU32345691	10/03/2022	Discharge	05/01/2025	ECTDCD	terminal	aref	MSC Belgium	PI	
<input checked="" type="checkbox"/> Released for pickup	CSQU32345691	27/09/2022	Discharge	05/01/2025	ECTDCD	terminal	aref	MSC Belgium	Owned by you	

With this feature you can transfer a specific (or all) container(s) of a BL to another entity.

To do this you can follow these steps:

1. first select the container(s) that you want to transfer;
2. then click on the arrow next to the button;
3. you will see the 'Transfer to the next party' option at the top of the drop-down list;
4. after clicking on it you can select the organization that you want to transfer these selected release(s) to.

A message will show you if the transfer was successful or not.

Releases can be transferred to the next party. At any time (until the gate-out) you can revoke the transfer. All parties in the chain will be notified.

The 'Transfer' dialog box contains the text: 'You have selected 1 releases. Please choose a company below to transfer these releases to'. Below this is a search bar and a table of companies. A '4' is placed to the left of the table. The table has columns 'Company' and 'Address'. The second row, 'Test Entity 2', is selected with a checked checkbox. Below the table is a pagination control showing 'Rows per page: 5' and '1-5 of 5'. At the bottom, there are 'CANCEL' and 'TRANSFER TO NEXT PARTY' buttons. A note at the bottom states: 'If the company you want to transfer to is not in the list, please contact your support user (Filip Heremans, filip.heremans@t-mining.be). The admin can make a connection with this company.'

Company	Address
<input type="checkbox"/> Stella14	..
<input checked="" type="checkbox"/> Test Entity 2	Multistraat 1, 2100, Deurnee
<input type="checkbox"/> Test Entity 3	S1, 2100, D1
<input type="checkbox"/> Test Entity 4	Test 1, 1111, Test
<input type="checkbox"/> testfh131022	..

## 6 - Using the Transfer and Revoke (How to revoke?)

TESTFH91320230316 MSC Kim MSC Belgium 648851 3FA85 301A

REVOKE MY TRANSFER

### Containers

Transferred

Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Tr
<input checked="" type="checkbox"/> Released for pickup	MSCU2107758	16/03/2023	Discharge	13/06/2023	Antwerp	S913	Depot 2	REF8804438	MSC Belgium	Tr
<input type="checkbox"/> Released for pickup	MSCU2593117	16/03/2023	Discharge	13/06/2023	Antwerp	S913	Depot 2	REF6143752	MSC Belgium	Tr

- Transfer to next party
- Revoke my transfer
- Assign to my driver
- Unassign
- Get a pincode
- Get an Audit trail

Same as for the transfer feature you can also revoke a specific (or all) container(s) of a BL to another entity.

To do this you can follow these steps:

1. first select the container(s) that you want to revoke;
2. then click on the arrow next to the button;
3. you will see the 'Revoke my transfer' option at the top of the drop-down list;
4. after clicking on it you will have a popup message asking you to confirm.

### Revoke

Are you sure you want to revoke these 1 release(s)? When you do this, all transfers that have been done by parties after you in the chain will be undone and you will again be the owner of release (and you can again transfer it afterwards).

CANCEL OK

## 7 - Using the Pincode.

TEST20230317-NTF   Secure Pick-up   MSC KIM   MSC Belgium   99785   3EPZ   305A   SECURE PICK-UP

**Containers**

	Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Transfer status
<input checked="" type="checkbox"/>	Released for pickup	TEST20230317-CTR1	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/>	Released for pickup	TEST20230317-CTR10	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/>	Released for pickup	TEST20230317-CTR2	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Assigned to driver

Transfer to next party  
Revoke my transfer  
Assign to my driver  
Unassign  
**Get a pincode**  
Get an Audit trail

The pincode option allows you to retrieve the pincodes for a BL/container.  
Once the pincode has been retrieved, a transfer of this release is no longer possible.

## 8 - Using the Assign/Unassign.

Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number	
TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP

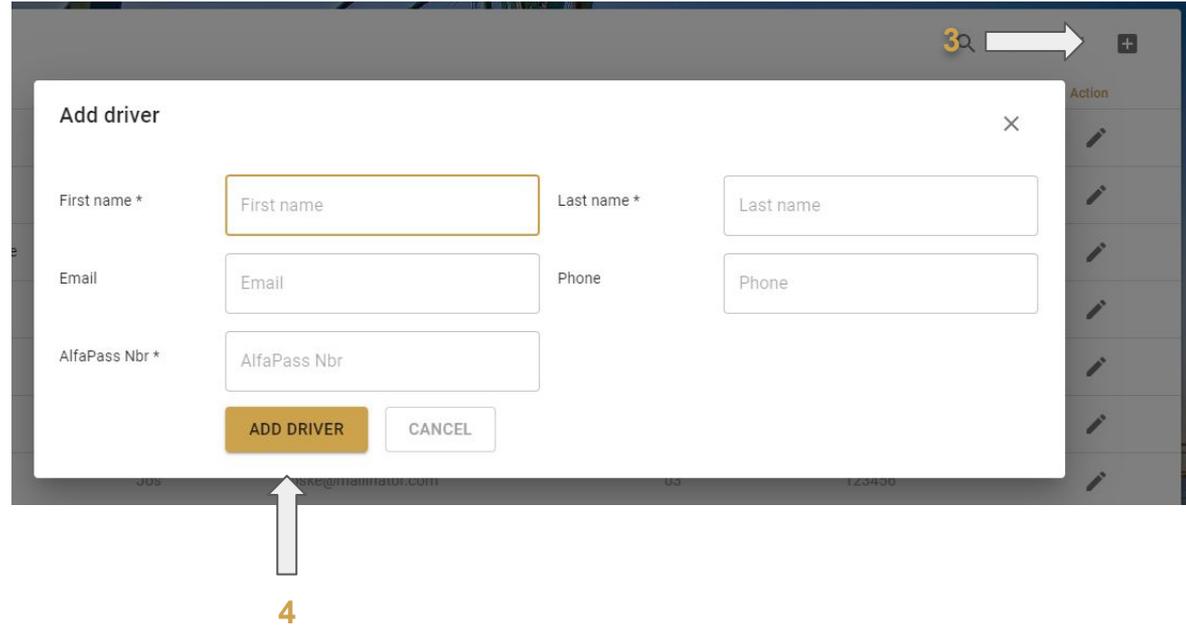

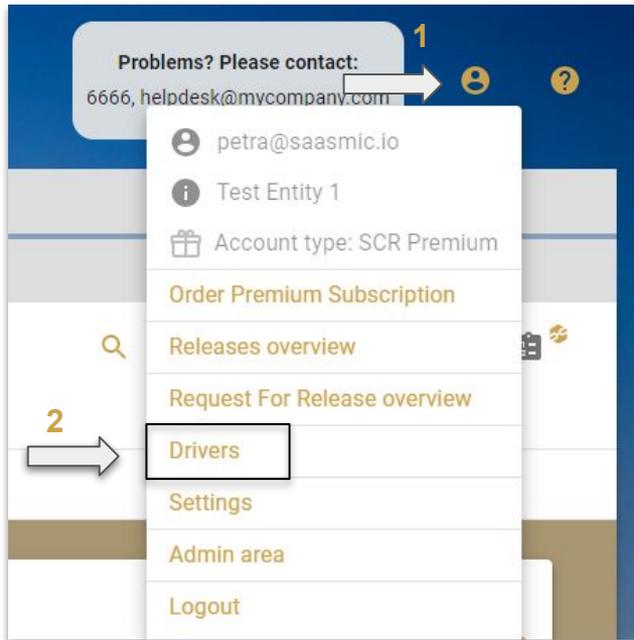

Containers											
	Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Transfer status
<input checked="" type="checkbox"/>	Released for pickup	TEST20230317-CTR1	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/>	Released for pickup	TEST20230317-CTR10	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/>	Released for pickup	TEST20230317-CTR2	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Assigned to driver

You can assign a certain releases to a specific driver by:

1. clicking on 'Assign to my driver';
2. selecting the correct driver;
3. clicking on 'Assign to my driver'.

This can also be undone by just clicking on 'Unassign'.

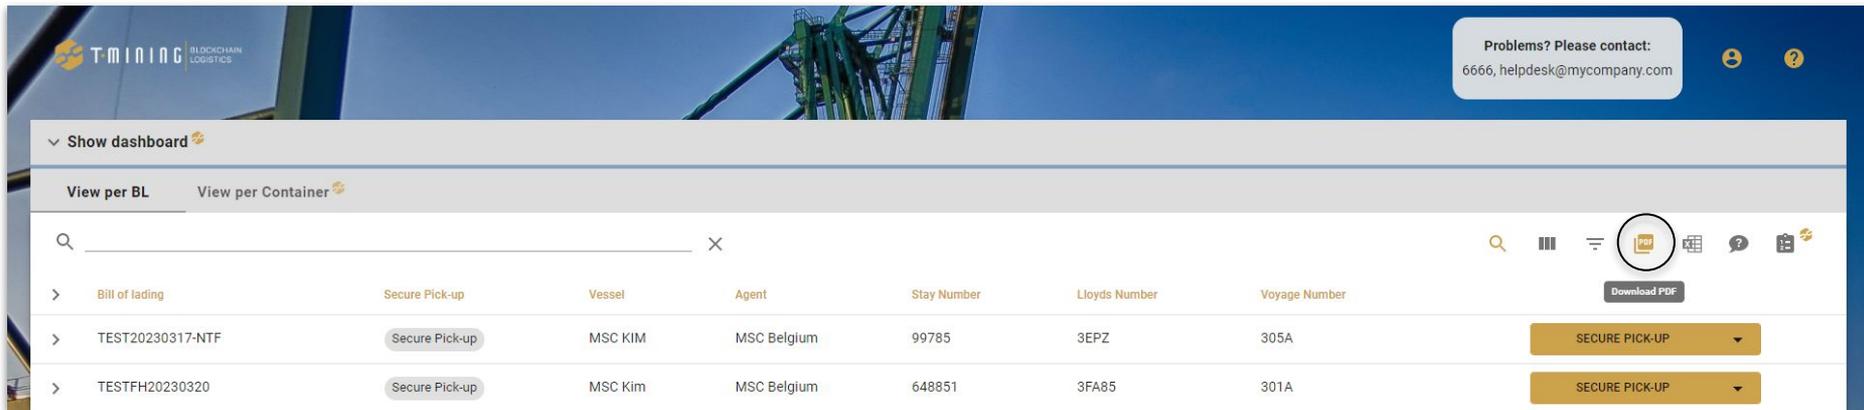

## 9 - Adding Drivers.

Drivers can be added by:

1. clicking on the little 'man-icon' on the top-right corner of your screen;
2. here you can click on 'Drivers';
3. add a new driver by clicking on the '+'-icon,
4. complete the requested data and click on 'Add Driver'.

## 10 - Exporting to PDF.

The screenshot shows a web application interface for container management. At the top left is the logo for 'TMINING BLOCKCHAIN LOGISTICS'. A navigation bar includes a 'Show dashboard' link. Below this is a filter bar with 'View per BL' and 'View per Container' options. A search bar is present. The main content is a table with columns: 'Bill of lading', 'Secure Pick-up', 'Vessel', 'Agent', 'Stay Number', 'Lloyds Number', and 'Voyage Number'. Two rows of data are visible. A 'Download PDF' button is located in the top right of the table area, circled in red. The table data is as follows:

Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number	
TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP
TESTFH20230320	Secure Pick-up	MSC Kim	MSC Belgium	648851	3FA85	301A	SECURE PICK-UP

The PDF export-button exports the releases shown on the screen to a PDF-file.

After clicking on it, the application will ask for the user if he/she would like the PIN included in the PDF-file or not.\*

### Fetch pincode?

**WARNING!** The use of pincodes to organise container releases is insecure and unsafe. We highly recommend using the transfer functionality and stop using pincodes. The transfer functionality is easier, more user-friendly and provides you with a better and safer alternative than the use of pincodes. For a quick overview on how to use the transfer functionality, visit [securecontainerrelease.com/nopinodesplease](https://securecontainerrelease.com/nopinodesplease) (opens in new window). Please note that by including a pincode, you can no longer transfer the release afterwards.

CONTINUE WITH PINCODE

CONTINUE WITHOUT PINCODE

## 11 - Making an Excel export.

The screenshot shows the TMINING Blockchain Logistics dashboard. At the top left is the logo 'TMINING BLOCKCHAIN LOGISTICS'. At the top right, there is a contact information box: 'Problems? Please contact: 6666, helpdesk@mycompany.com'. Below the header, there are navigation options: 'Show dashboard' and 'View per BL' (selected) / 'View per Container'. The main content area displays 'Showing results for validity: valid, release status: Released for pickup' with a 'SHOW ALL' button. A table of container releases is shown below:

>	Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number	Download Excel
>	TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP

The Excel export-button exports the releases shown on the screen to an Excel-file.

After clicking on it, the application will ask for the user if he/she would like the PIN included in the Excel-file or not.\*

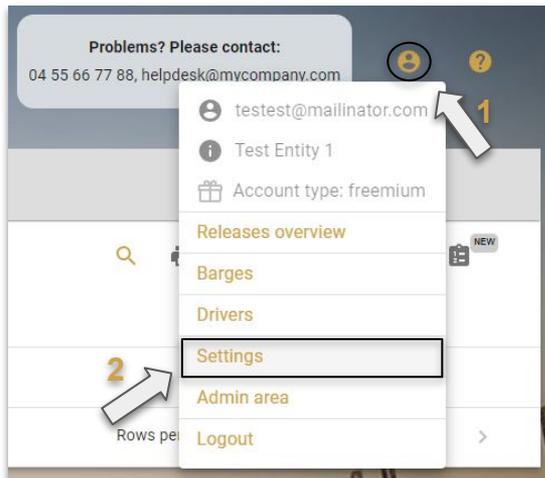

### Fetch pincode?

**WARNING!** The use of pincodes to organise container releases is insecure and unsafe. We highly recommend using the transfer functionality and stop using pincodes. The transfer functionality is easier, more user-friendly and provides you with a better and safer alternative than the use of pincodes. For a quick overview on how to use the transfer functionality, visit [securecontainerrelease.com/nopincodeplease](https://securecontainerrelease.com/nopincodeplease) (opens in new window). Please note that by including a pincode, you can no longer transfer the release afterwards.

CONTINUE WITH PINCODE

CONTINUE WITHOUT PINCODE

## 12 - Settings & Preferences.

You can find your settings and preferences on the top-right corner of your screen after clicking on the little 'man-icon' (1 & 2).

On the settings-page you can set your language and email notifications preferences (3).

Don't forget to click on 'SAVE' after making changes to your preferences (4)!

## 13 - Find help & support.

Support is available through:

1. Your internal support desk or admin user;
2. The support page;
3. The chat-button in the bottom-right corner of your screen;

Or via email: [support@securecontainerrelease.com](mailto:support@securecontainerrelease.com);

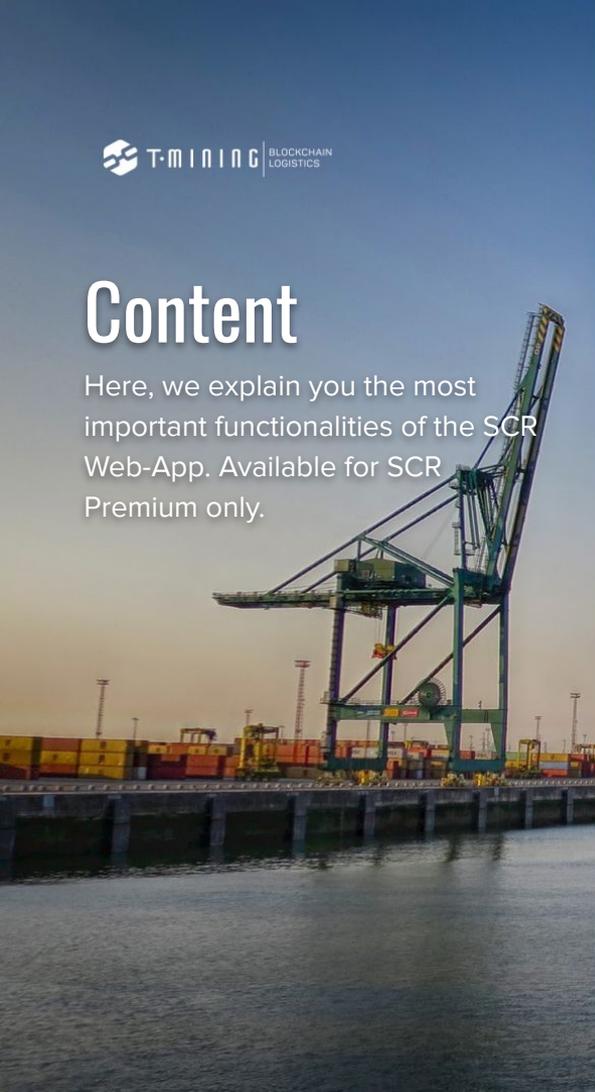

A screenshot of a LiveChat interface. The title bar says "Welcome to T-Mining Chat". The main content area contains the text: "Welcome to our LiveChat! Please fill in the form below before starting the chat." Below this are two input fields: "Name: \*" and "E-mail: \*". At the bottom of the form is a button labeled "Start the chat". At the very bottom of the interface, it says "Powered by LiveChat". A white arrow with an orange number 3 points to the bottom right corner of the interface.

# Content

Here, we explain you the most important functionalities of the SCR Web-App. Available for SCR Premium only.

## Overview of the features available in SCR Premium only:

1. Using the Dashboard.
2. Using the Audit Trail.
3. Using the Bulk Operations.
4. View by container
5. Grouped notifications
6. Received from & transferred to data

# 1 - Using the Dashboard.

The screenshot displays the SCR app dashboard. At the top, there are two buttons: 'Show dashboard' (with a left-pointing arrow and a '1' next to it) and 'Hide dashboard'. Below these are four pie charts representing different release metrics:

- Release Status:** A pie chart with a large brown section (87.3%) and a small blue section. A legend below shows 'Picked up' (blue) and 'Not valid any...' (brown). A '1/2' navigation indicator is present.
- Transfer Status:** A pie chart with a large blue section (48.8%), a brown section (36%), and a small yellow section. A legend below shows 'Assigned' (yellow) and 'Owned by you' (blue). A '1/2' navigation indicator is present.
- Terminal:** A pie chart with a large brown section (77.1%), a yellow section (18.1%), and a small blue section. A legend below shows counts: 120 (yellow), 1700 (blue), and 1742 (brown). A '1/3' navigation indicator is present.
- Validity of released containers:** A pie chart with a large yellow section (87.7%) and a small blue section. A legend below shows 'Invalid' (yellow) and 'Valid' (blue).

Below the charts, there are two view options: 'View per BL' and 'View per Container'. A 'Showing results for validity: valid, release status: Released for pickup' section contains a 'SHOW ALL' button with a left-pointing arrow and a '6' next to it. To the right of this section are several utility icons: a hamburger menu, a list icon, a PDF icon, a grid icon, a question mark, and a gear.

At the bottom, a list of release details is shown with columns: 'Bill of lading', 'Secure Pick-up', 'Vessel', 'Agent', 'Stay Number', 'Lloyds Number', and 'Voyage Number'.

Clicking on the 'Show dashboard' button (above your release overview) will open pie charts (1) where you can click on/filter your releases based on:

- the release status (2);
- the transfer status (3);
- the terminal (4);
- the validity of released containers (5).

This can be undone by clicking on the 'SHOW ALL' button which will show you all your releases within the SCR app (6).

## 2 - Using the Audit-Trail.

The screenshot shows a web application interface with a search bar at the top and a table of containers. The table has columns for Release status, Container Nbr, Released On, Valid from, Valid till, Pick up port, Pick up terminal, Truck turn-in loc, Truck turn-in ref, Received from, and Transfer status. A dropdown menu is open for the 'SECURE PICK-UP' button, showing options: Transfer to next party, Revoke my transfer, Assign to my driver, Unassign, Get a pincode, and Get an Audit trail. A red arrow points to the 'Get an Audit trail' option.

Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Transfer status
<input checked="" type="checkbox"/> Released for pickup	TEST20230317-CTR1	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/> Released for pickup	TEST20230317-CTR10	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved
<input type="checkbox"/> Released for pickup	TEST20230317-CTR2	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Assigned to driver JUS FIEREMANS

With this feature you can consult the history of your releases.

To do this you can follow these steps:

1. first select the container(s) for which you want to see the history;
2. then click on the arrow next to the button;
3. you will see the 'Audit Trail' option at the bottom of the drop-down list;

After clicking on 'Audit Trail' you can view all performed actions of the selected release(s). An example of this feature can be found on the next page.

**note:**  
the button could also have different nomination ei:

A close-up of the dropdown menu for the 'SECURE PICK-UP' button. The menu items are: SECURE PICK-UP, TRANSFER TO NEXT PARTY, and ASSIGN TO MY DRIVER.

This is also for safety reasons (to keep track of the actions that were completed by the users within these organizations).

Every retrieval/transfer/revoke/etc.. (where your organization is involved in) is 'saved' and can also be viewed by all the users with the 'Audit Trail'-feature.

## 2 - Using the Audit-Trail.

### Audit Trail

Tip: for the Audit Trail to work well, avoid using general mail accounts like import@yourcompany.be. We recommend using personalized accounts like first.lastname@yourcompany.be

BL number	Container Nbr	Timestamp	Event	By	To	Description
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 09:42	creation	MSC Belgium		
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 09:42	transfer	MSC Belgium	Test Entity 1	
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 10:24	transfer	Test Entity 1	Test Entity 2	
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 15:52	revoke	User: testtest testtest		
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 15:52	unassign	Test Entity 1		
TESTFH20230320	MSCU2460005	Mon 20 Mar 2023 15:52	assign driver	Test Entity 1		
TESTFH20230320	MSCU2460005	Mon 10 Apr 2023 20:45	pincode	Test Entity 1		
TESTFH20230320	MSCU2460005	Mon 10 Apr 2023 20:47	pincode	Test Entity 1		

[DOWNLOAD AUDIT TRAIL AS CSV FILE](#)

In this example you can see that three actions were taken by three different entities.

- the release was first created by MSC Belgium;
- then transferred to 'Test Entity 1';
- then 'Test Entity 1' transferred it to 'Test Entity 2'.

All the actions and time stamps are saved and can be retrieved/viewed by the end-user.

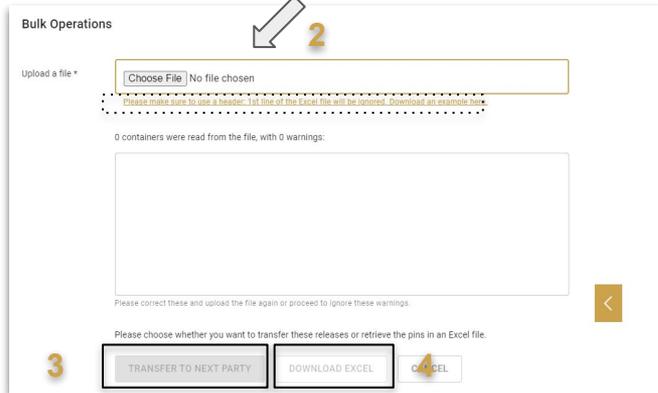

The audit trail can always be downloaded as a CSV-file by clicking on the 'DOWNLOAD'-button (1).

TIP: You can also see which user exactly did a certain action for a release by hovering above the entity-name (2).

### 3 - Using the Bulk Operations.

View per BL	View per Container							
Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number		
TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP	

**Bulk Operations**

Upload a file \*

Choose File | No file chosen

Please make sure to use a proper .xl(x) file or the Excel file will be rejected. Download an example file.

0 containers were read from the file, with 0 warnings.

Please correct these and upload the file again or proceed to ignore these warnings.

Please choose whether you want to transfer these releases or retrieve the pins in an Excel file.

TRANSFER TO NEXT PARTY | DOWNLOAD EXCEL | CANCEL

With this feature you can handle multiple bills of lading or containers in one action.

To do this you can follow these steps:

1. first click on this icon (1);
2. a window will pop-up where you can select your Excel-file (an example can be downloaded if you don't have one) (2);
3. then you can transfer the release to the entity you'd like by clicking on the 'TRANSFER TO NEXT PARTY'-button (3).
4. You can also retrieve the pin codes in bulk with the 'DOWNLOAD EXCEL' button (4)

**Notes:** These steps are explained in more details when you click on the icon to open the 'Bulk Operations' (1).

## 4 - View by container

Problems? Please contact: 6666, helpdesk@mycompany.com

▼ Show dashboard

View per BL **View per Container** 1

show selected containers 5

SECURE PICK-UP

Search: \_\_\_\_\_ X 2

Received from 3

Transfer status 4

Container Nbr	Secure Pick-up	Vessel	Bill of lading	Valid till	Pick up terminal	Truck turn-in loc	Truck turn-in ref	Received from	Release status	Transfer status	Transferred to
<input checked="" type="checkbox"/> MSCU167576	Secure Pick-up	MSC Kim	TEST20230313	13/06/2023	1742	Depot 2	REF2687892	MSC Belgium	Released for pickup	Assigned to driver Jan De Man	
<input checked="" type="checkbox"/> MSCU2674574	Secure Pick-up	MSC Kim	TEST20230313	13/06/2023	1742	Depot 2	REF2657498	MSC Belgium	Released for pickup	Assigned to driver Jan De Man	
<input type="checkbox"/> MSCU2930358	Secure Pick-up	MSC Kim	TEST20230313	13/06/2023	1742	Depot 2	REF6185246	MSC Belgium	Released for pickup	Assigned to driver Jan De Man

Clicking on the 'View per Container' tab (1) will give you a detailed view on your container releases:

- You can see the pick up terminal and the validity of the bill of lading (2);
- But also information related to reception (received from) and the transfer status (3);
- You can make a research to find a specific container if needed (4);
- Additionally you can filter on the selected container by ticking 'show selected containers' at the top, once you have selected at least 1 container.

## 5 - Grouped notifications

The screenshot shows the TMINING dashboard with three pie charts: Release Status (87.4% Blocked, 12.6% Picked up), Transfer Status (13.7% Assigned, 28.4% Picked up, 51.1% Released), and Terminal (82.6% Blocked, 17.4% Picked up). A user profile menu is open, showing options like 'Settings' and 'Admin area'. A red circle labeled '1' highlights the account icon, and a red arrow labeled '2' points to the 'Settings' option.

The Preferences dialog box shows the 'Preferred Language' set to 'English'. Under the notification settings, the checkbox 'I want to receive an email when a release is updated' is checked. A dropdown menu is open, showing 'by container' and 'by BL' (selected). A red circle labeled '3' highlights the 'by BL' option. A 'SAVE' button is visible at the bottom.

With this feature you can receive notifications by BL instead of by container.

To do this you can follow these steps:

1. first click on the account icon (1);
2. then go to your settings (2);
3. select the type of notification that you want to receive and click on 'by container' then change is to 'by BL' (3).

**You will now have your notifications grouped on a BL level**

## 6 - Received from and transferred to data

▼ Show dashboard 🗨

View per BL View per Container 🗨

Bill of lading	Secure Pick-up	Vessel	Agent	Stay Number	Lloyds Number	Voyage Number	
▼ TEST20230317-NTF	Secure Pick-up	MSC KIM	MSC Belgium	99785	3EPZ	305A	SECURE PICK-UP ▼

Containers

<input type="checkbox"/>	Release status	Container Nbr	Released On	Valid from	Valid till	Pick up port	Pick up terminal	Truck turn-in loc ▼	Truck turn-in ref	Received from 🗨	Transfer status	Transferred to 🗨
<input type="checkbox"/>	Released for pickup	TEST20230317-CTR1	17/03/2023	Discharge	31/12/2023	Antwerp	1742	Mainport container services	MSCD987654	MSC Belgium	Pin retrieved	

When you click on the BL, all releases for this BL are shown with the release information (1).

This will contain all the release information + from who you've received the release from and (who you've transferred the release to) (2).
