Other Restrictions			<p>Washington State Pilots - restrictions to board vessels within 14 days from China ports.</p> <p>Pilot delegations at different ports have introduced restrictions indicating requirements for interaction between vessel and pilots, only Washington has a transit time requirement.</p> <p>It is the position of the USCG and USCBP that if a vessel is classified high-risk for reasons such as its Ports of Call or Crew Change where crew travelled to/from a high risk country, the USCG will issue a 'Safety COTP order' restricting any shore leave for the ship's crew, and USCBP (immigration) will not board the ship to process the crew face to face control, instead they will issue a CBP form I-259 requiring detention of all crew onboard. This will also mean that crew will not be permitted to sign off in New York. In view of the above, NLI will also be guided by their decision and will not board any vessel that is subject to the 'Safety COTP order'. NLI will work out details regarding transfer of all necessary paperwork and documents for government formalities with the Captain, as well as all other requirements to ensure the safe and efficient turnaround of the vessel.</p>
