# EUROGATE Container Terminal Wilhelmshaven

June 2022

The EUROGATE Container Terminal Wilhelmshaven is the only deep-water container terminal in Germany...

- Modern terminal infrastructure

- Space availability and expansion potential

- Flexible and professional staff

- Committed to reliability and quality

- Double-track to/from Wilhelmshaven to the European economic centers

- Fully electrified (expected end 2022)

- Direct motorway connection

- Additional services at request

- Exclusivity for our customers without operational restrictions

- Infrastructure prepared for highest productivity

- Modern hinterland connections with high capacity and reliability

- The only German container terminal without operational restrictions like wind, air-draft, depth, vessel bypassing and more

... and it offers a faster gate to North Europe with further rail and truck connectivity…

...to more European destinations by rail and truck

- Wilhelmshaven has the fastest access from the sea to land with 1,5 hours from the pilot station to the terminal.

- Cargo connectivity via truck and rail to various European locations with less complexity

- **Secure your carrier's haulage inland slots early** by placing your booking up to final inland destination right from the beginning.

- Make use of the competitively low dwell times in Wilhelmshaven and benefit from fast ship-to-shore hinterland connectivity

- A variety of available vendors*: Transfacht, Necoss, ROLAND Umschlag, Roland Spedition, Weets Gruppe, Metrans
