

# RME Delay in Transit (DIT) Program Overview

April 2020

# Delay in Transit (DIT) Program

## Benefits of DIT

Increased **flexibility** for deliveries

Brings cargo closer to customers, while **minimizing delays** due to blank sailings in the market

**Minimize cost** of customs charges due to change of consignee name on the Bill of Lading

**Avoid additional storage costs** at destination, due to limited availability of trucks for example

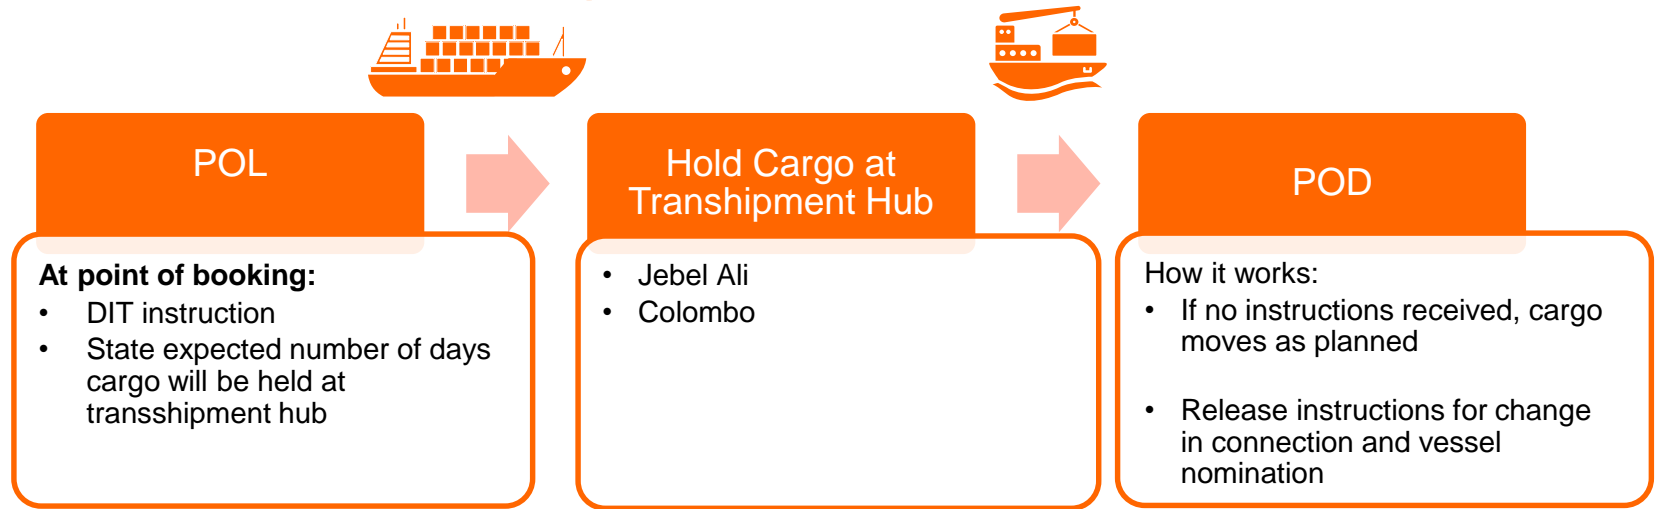

## Exceptions

Only applicable to standard general containers, excluding DG / Reefer / Out of Gauge

Does not apply to commodities: Used Items / Waste Paper / Plastic Scraps / Metal Scraps / Ores

Splits or merge of shipments will not be possible

# Delay in Transit (DIT) Program

## Upon arrival at DIT hub and if COD is required....

- Communicate final destination at least 7 days prior vessel sailing from DIT hub
- Hapag-Lloyd to confirm back within 24 hours confirming space availability and possible extra costs as POD is different than the one at time of original booking.
- Payment terms to count from time of loading.
